Trustee's Report

The annual report and financial statements of the Credit Suisse Group (UK) Pension Fund for the year ended 31 December 2023 are presented and audited in compliance with regulations issued under sections 41 (1) and (6) of the Pensions Act 1995, including the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996 (the Regulations).

1. Introduction

The Trustee of the Credit Suisse Group (UK) Pension Fund (the 'Fund') is pleased to present the annual report together with the audited financial statements for the year ended 31 December 2023. The Fund is an occupational pension scheme incorporating Defined Benefit and Defined Contribution Sections and is administered by FIL Life Insurance Limited ('Fidelity'), in accordance with the establishing documents and rules, solely for the benefit of its members and other beneficiaries.

2. HMRC Registration

The Fund is registered with HMRC under Chapter 2 of Part 4 of the Finance Act 2004. This means that the contributions paid by the principal employer, participating employers and the members qualify for full tax relief, and enables income earned from investments by the Trustee to receive preferential tax treatment.

3. Principal Employer

Credit Suisse International (the 'Company') is the principal employer of the Fund. The Fund offers benefits for all eligible employees of the principal and participating employers, which are listed on page 4.

4. Trustee and Advisers

The responsibility for setting the strategy for managing the Fund rests with the Trustee.

Until 31 July 2023, the Trustee of the Fund was Credit Suisse First Boston Trustees Limited (the 'Previous Trustee'). The Company, as principal employer of the Fund, replaced the Previous Trustee as Trustee of the Fund with the appointment of a professional corporate sole trustee, Independent Trustee Services Limited (referred to as 'ITS' or the 'Trustee').

ITS was appointed as Trustee of the Fund with effect from 1 August 2023 and the views expressed in this report therefore, reflect the views of ITS as Trustee in relation to its appointment to the Fund since that date.

The power of appointment and removal of the Trustee was exercised through a Deed of Appointment and Removal of Trustees and ratification. The Company as principal employer may, at any time, appoint or remove from office any Trustee of the Fund. The Fund is now exempt from the requirement to appoint member-nominated Trustees under the Occupational Pension Scheme (Member-Nominated Trustees and Directors) Regulations 2006 as the new Trustee is a sole independent trustee.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

ITS as Trustee of the Fund is represented by Chris Martin and Akash Rooprai. Chris Martin is the lead director and an authorised signatory for ITS. Akash Rooprai and Jennifer Adams are also authorised signatories for ITS in relation to the Fund.

Strategic decisions relating to the Fund are taken by Chris Martin and Akash Rooprai.

Independent Trustee Services Limited, is also appointed by the Trustee of the Fund and Credit Suisse International Limited to deliver the Trustee Chief Operating Officer (Trustee 'COO') services. This appointment took effect from 1 August 2023. Until 31 July 2023, the Trustee COO services were provided by Pegasus Pensions PLC.

The present advisors and service providers to the Trustee are shown on pages 4 and 6. The day to day management and operation of the Fund has been delegated to these service providers, operating in accordance with formal contracts with day to day oversight provided by the Trustee COO. The Trustee monitors the performance of all delegates, including the Trustee COO.

Trustee meetings

The Trustee Board met formally four times during the Fund year – two formal meetings of the Previous Trustee and two formal meetings of ITS. Other meetings were held, as required, to deal with business that could not await the next scheduled meeting.

The Previous Trustee had one formal sub-committee, the Investment Committee, addressing other matters via working groups for specific purposes. The Investment Committee met twice during the Fund year and its membership during the Fund year up to 31 July 2023 was as follows:

Simon Meadows (chair) – Trustee Director
Patrick Flaherty – Trustee Director
Glenn Wellman – Trustee Director
Clare Abrahams – Company representative (DC related items only)

Following the appointment of ITS, the Investment Committee was disbanded. Project working groups were set up by ITS following its appointment to progress various projects for the Fund.

5. Financial Development of the Fund

The Financial Statements included in this annual report are the accounts required by the Pensions Act 1995. They have been prepared and audited in compliance with the regulations made under Sections 41 (1) and (6) of that Act.

Credit Suisse Group (UK) Pension Fund

• (Child) Pension ceased	(4)	-	(4)
	(19)	-	(19)
Pensioners at the end of the year	1,095*	-	1,095

*There are 157 (2022: 147) dependants within the figures above.

The 54 active members in the Defined Benefit Sections are those individuals with a retained benefit within the Defined Benefit Sections; these members are actively contributing to DC Plus section of the Fund.

The figures shown represent the number of records held by the Administrator. Some members have more than one record as they hold more than one entitlement to benefits from the Fund. This applies to the 54 active DB members referred to above and also 821 DB deferred members.

7. Pension Increases

In accordance with the Rules of the Fund, pensions in payment are generally subject to increase in whole or in part on 1 April each year. In 2023, no discretionary pension increases were awarded in any section of the Fund. Members of the Donaldson, Lufkin & Jenrette International Retirement Savings Plan (DLJ) Final Salary (DB) Section of the Fund receive increases on the anniversary of the date they retired. Certain pensions are increased in line with inflation (either RPI or CPI) subject to a maximum increase of 5% p.a. For the purpose of the 1 April 2023 pension increases, the applicable increase was 5.0% for those receiving an RPI linked increase and 3.0% for those receiving a CPI linked increase.

Section	CSFB	RBP	BZW FS	SVB RBP	DLJ FS

8. Increases to Deferred Benefits

During the year, deferred benefits were increased in accordance with statutory requirements.

9. Fund Changes

A new Schedule of Contributions was signed and certified in January 2023 and this was then replaced by a further new Schedule of Contributions signed and certified in December 2023. Post year end, a new Schedule of Contributions was signed and certified in July 2024. Please see Section 11 for further details.

In June 2023, Credit Suisse Group AG was acquired by UBS Group AG. At that time, the Previous Trustee monitored the position closely by obtaining regular updates from the Company in case of any possible implications for the Fund. ITS continues to monitor the position closely by obtaining regular updates from the Company. The DB Section of the Fund is very well funded and its assets are conservatively invested.

More details of the funding level can be found on pages 12 and 14.

10. Transfer Values

Members leaving service can transfer the value of their benefits under the Fund to another scheme that they join or to an insurance contract or personal pension. Transfer values do not include an allowance, where applicable, for any discretionary benefits which might be awarded.

During the year, all transfer values paid were equal to the cash equivalent of the members' leaving service rights.

11. Contributions

In the DC sections, the Company makes an Age-Related Contribution, via a salary sacrifice arrangement, on behalf of each active member. Age-Related Contributions are a percentage of Pensionable Salary based on the member's age as follows:

Members' age	Percentage of pensionable salary
Less than 40	10.5%
40 or more but less than 50	13.0%
50 or more but less than Normal Retirement Age	15.5%
50 or more but less than Normal Retirement Age	15.5%

The Age-Related Contribution is the amount payable before members make pensions related decisions under the Company's My Benefits plan. If a member opts to make additional contributions via My Benefits

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

these Additional Employer Contributions are also paid by the Company via a salary sacrifice arrangement.

A Schedule of contributions was signed and certified in March 2022 following completion of the 31 December 2020 triennial actuarial valuation. It provided that, until 31 March 2025, administrative expenses, fee rebates for pre 2004 DC members, PPF levies and other statutory levies are to be paid by the Fund and the Fund will meet the cost of providing death in service pensions. The Company may pay additional contributions in respect of expenses for certain one-off projects from time to time as agreed between the Trustee and the Company.

A new Schedule of Contributions was signed and certified in January 2023. The purpose of this new Schedule was to document agreement between the Company and the Trustee that credits to members' DC Plus accounts in respect of the period from 1 February 2023 to 31 January 2024 would be met from the general assets of the Fund without corresponding contributions being payable by the Employers, up to a cumulative maximum amount of £10m (or such other amount as the Trustee and Company may from time to time agree in writing).

This Schedule was subsequently replaced by a further Schedule of Contributions which was signed and certified in December 2023.

The purpose of this further Schedule was to extend the agreement between the Company and the Trustee so that credits to members' DC Plus accounts would be met from the general assets of the Fund without corresponding contributions being payable by the Employers in respect of the period from 1 February 2023 to 31 July 2024, rather than to 31 January 2024, and to change the cumulative maximum amount to £15m (or such other amount as the Trustee and Company may from time to time agree in writing), from £10m.

Following the Fund year end, a new Schedule of Contributions was signed and certified in July 2024. This replaced the Schedule in place as at the Fund year end. This new Schedule extended the agreement between the Company and the Trustee so that credits to members' DC Plus accounts would be met from the general assets of the Fund without corresponding contributions being payable by the Employers in respect of the period from 1 February 2023 to 30 June 2025, rather than to 31 July 2024, and to change the cumulative maximum amount to £20m (or such other amount as the Trustee and Company may from time to time agree in writing), from £15m.

12. Actuarial Liabilities Report

As required by Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" (FRS 102), the financial statements do not include liabilities in respect of promised retirement benefits.

Under section 222 of the Pensions Act 2004, every scheme is subject to the Statutory Funding Objective, which is to have sufficient and appropriate assets to cover its technical provisions, which represent the present value of benefits to which members are entitled based on pensionable service to the valuation date. This is assessed at least every 3 years using assumptions agreed between the Trustee and the Company and set out in the Statement of Funding Principles, a copy of which is available to Fund members on request.

13. Report on Actuarial Liabilities

Formal actuarial valuations of the defined benefit sections of the Fund are carried out every three years, and the most recent completed valuation had an effective date of 31 December 2020. This valuation was completed on 28 March 2022, and has been used to prepare this report on the actuarial liabilities.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Significant Technical Provisions assumptions as at 31 December 2020

Method used – Projected Unit Method.

Discount interest rate: term dependent rates set by reference to the fixed interest gilt curve (as derived from Bank of England data) at the valuation date plus an addition representing a prudent allowance for the expected out-performance of return-seeking assets held by the Fund. This allowance is 0.02% p.a.

Future Retail Prices Index (RPI) inflation: term dependent rates derived from gilt market implied break-even inflation (as derived from Bank of England data).

Future Consumer Prices Index (CPI) inflation: term dependent rates derived from the assumption for future RPI less an adjustment equal to 0.70% p.a. (pre-2030) and RPI less an adjustment equal to 0.1% p.a. (post-2030).

Pension increases: derived from the term dependent rates for future RPI or CPI inflation allowing for the caps and floors on pension increases according to the provisions in the Fund's rules and market derived volatilities.

Pay increases: general pay increases of 1.25% p.a. above the term dependent rates for the future CPI.

Mortality: for the period in retirement, 102% of SAPS S3PXA light tables except 109% scaling factor for contingent lives of current female members and allowance for improvements in line with CMI 2020 core projections with a smoothing parameter of 7.0 and a long-term rate of improvement of 1.5% p.a. for men and women and an initial improvements adjustment parameter of +0.50% p.a.

Recovery plan following the valuation as at 31 December 2020

The valuation as at 31 December 2020 revealed a Technical Provisions surplus of £403.0m which corresponded to a funding level of 119%. The Fund therefore does not have a current recovery plan.

Review of Fund's financial prospects having regard to the actuarial report as at 31 December 2023

The Fund's overall funding position as at 31 December 2023 showed a surplus of £254.5 million and a funding ratio of 125%. Although the surplus is smaller in monetary terms in comparison to previous years, the funding ratio has improved since the 31 December 2020 actuarial valuation.

Except as provided for in the Schedule of Contributions signed and certified in July 2024, the participating employers continue to pay contributions to the Fund to provide benefits for current active members. From 1 April 2021 to 31 March 2025, the Fund's running costs (including provision of death in service pensions) are met from the surplus assets.

The technical provisions funding position as at 31 December 2023 improved since the actuarial valuation as at 31 December 2020. The value of the Fund's assets has decreased since the actuarial valuation as at 31 December 2020 although this decrease has been more than offset by the more substantive decrease in technical provisions. The technical provisions liabilities have decreased significantly since 2020, due to the benefits paid out of the Fund although this was offset, to some extent, by changes in market conditions. The Liability Driven Investment (LDI) portfolio closely matches the liability benchmark and there was also positive performance on the well diversified credit portfolio. Further details are provided in the Investment Report in Section 20.

Solvency position

The estimated solvency position has also improved since the last actuarial valuation as at 31 December 2020. The solvency liabilities are benchmarked to recent market quotations and pricing information provided by insurers.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

The estimated amount needed to ensure that all members' benefits could be paid in full by an insurance company if the Fund was wound up at 31 December 2020 and 31 December 2023 was £1,936.1 million and £1,073.5 million respectively, whereas the value of the assets at the same dates were £2,246.5 million and £1,281.9 million respectively, giving a solvency funding position of 116% and 119% respectively. This assessment is referred to as the solvency funding position.

14. Employer Related Investments

The investments held in the Fund are invested in compliance with the Pensions Act 1995. At 31 December 2023, some of the Fund's defined contribution pooled investment vehicles are invested in equity shares issued by the Principal Employer's ultimate parent - UBS Group AG. The value of this employer related investment amounted to 0.095% of the Fund's net assets. At 31 December 2022, the ultimate parent was Credit Suisse AG and the investment amounted to 0.003% of the Fund's net assets.

15. Governance and Risk Management

The Trustee has in place a scheme calendar which sets out all areas of activity, and includes a list of main priorities and a timetable for completion. This helps the Trustee run the Fund efficiently and serves as a useful reference document.

The Trustee has overall responsibility for ensuring that an appropriate system of risk management, governance and internal controls is established and maintained. This includes an integrated risk management framework that sets out the key risks to which the Fund is subject to, along with the key controls in place to mitigate these risks, held within a risk register. The risk register underwent a full review in 2023 following the appointment of the new Trustee to ensure that the risks remain appropriate and that the assessment process and reporting format is efficient and remains robust. Regular review of these risks is undertaken by the Trustee.

Strategic project work for the Fund is run separately and each project has its own risk register which is reviewed and maintained regularly.

The Trustee maintains a Conflicts of Interest Policy and Register. It is the responsibility of the directors of the Trustee, to identify any potential instances where their personal, business or other interests might come into conflict with their duties as a director of the Trustee. Any such potential conflict is brought to the attention of the Trustee COO, for consideration and guidance and agreement of an approach to managing the potential conflict of interest, if necessary, in consultation with the Company.

As part of its risk management work and as preparation for the publication of the new General Code from the Pensions Regulator, the Trustee carried out a gap analysis against the requirements of the draft code in 2023. The General Code was published and came into effect in March 2024 and work is underway to ensure that its requirements are met.

16. Further Information

Further information about the Fund is available, on request, to members and prospective members, their spouses and other beneficiaries together with all recognised trade unions. In particular, the documents constituting the Fund, the Rules and a copy of the latest actuarial valuation/report and the Trustee's Statement of Investment Principles ("SIP") and Statement of Funding Principles can be inspected. Please contact the Trustee COO at the address on page 5. A copy of the latest SIP, dated July 2024, can be found at <https://www.fidelitypensions.co.uk/costs-charges/CSGP>.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Members can request details of the amount of their current transfer value. Such requests cannot, however, be made more frequently than once a year, without incurring a charge.

If members have any queries concerning the Fund in general or their personal pension position, or wish to obtain further information, they should contact the Fund Administrator at the address on page 3, who will also be able to provide further copies of the Fund booklet and answer any queries about entitlements to benefits. If members have any complaints in relation to the Fund, they should in the first instance contact the Fund Administrator.

Matters that cannot be addressed by the Fund Administrator should be directed to the Trustee COO at the address on page 5, as should any communication for the Trustee.

Please see page 86 for pertinent contact details including the Pensions Ombudsman and the Money and Pensions Service.

17. Data Protection

The Trustee, the Company and the Fund's advisors and service providers each have a legal obligation and a legitimate interest to process data relating to members for the purpose of administering and operating the Fund in accordance with the General Data Protection Regulation (GDPR).

Details of how the Trustee uses member data can be found in the Trustee's Privacy Notice which is available from the Fund Administrator (see page 5 for contact details).

18. GMP Equalisation

In 2018, the High Court ruled that pension schemes which had been contracted out of the State Scheme on a Guaranteed Minimum Pension (GMP) basis prior to 5 April 1997 must take action to treat men and women equally in relation to the GMP built up on service between 17 May 1990 and 5 April 1997. In 2020, the High Court ruled that transfers out since 17 May 1990 must also be equalised for any impact of GMP.

The Trustee is working with its advisors, on the impact of this ruling on the Fund and the equalisation of guaranteed minimum pensions between men and women, in the context of the Rules of the Fund and the value of any liability. The Trustee will inform members affected when this review is finalised, and any liability quantified. This will be accounted for in the year it is determined. Further information can be found in note 29 of the financial statements.

19. Market Volatility

UK market volatility was less of a theme in 2023 compared to the heights witnessed following the September 2022 mini-budget. At a global level, high inflation continued to be a major focus for investors and policymakers. Major central banks, including the Federal Reserve in the United States, the Bank of England, and the European Central Bank, responded to high inflation through continued interest rates hikes. Towards the end of the year, interest rate cuts were signalled to take place in 2024, although the timing and pace of such cuts remains uncertain. During 2023, speculation about the timing and pace of interest rate changes increased volatility in bond markets.

The war in Ukraine and geopolitical tensions continue to present an elevated risk of adverse impacts on global trade and economic stability. Despite this, credit spreads tightened over the past 12 months, reflecting more positive investor sentiment overall. The Trustee continues to monitor developments and is

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

well placed to take any action as required.

The Fund's Defined Benefit (DB) investment strategy includes the use of liability driven investments (LDI) that seeks to provide a broad match to changes in the Fund's liability values to help protect the Fund's overall funding position. These LDI investments respond in a similar way to the Fund's liabilities, when government bond yields and expected inflation change. The DB section remains well funded. The Trustee has no concerns regarding the Fund's ability to meet the payment of benefits to members as they fall due nor the Fund's ability to continue as a going concern for at least the 12 months following this report.

The Fund's Defined Contribution (DC) benefits depend on how investment funds perform. The primary asset classes that are available in the DC Section are equities, government bonds, corporate bonds and property. Following poor performance in 2022, equity markets rallied over 2023. The gains were primarily concentrated in large market capitalisation technology stocks on the back of developments in artificial intelligence.

Gilts continued to struggle over the majority of the year. However, there was a rally in gilt markets in Q4 2023 following increased expectations of interest rate cuts by investors. Corporate bonds also had strong performance over the latter half of the year. Property was flat over the year as higher interest rates and demand concerns in office property impacted returns.

20. Investment Report

All investments have been managed during the year under review by the investment providers listed on page 5 and 6. There is a degree of delegation of responsibility for investment decisions. The Trustee is responsible for the investment strategy of the Fund and this has been agreed after taking appropriate advice.

Subject to complying with the agreed strategy and investment mandates the day to day management of the Fund's asset portfolio is the responsibility of the individual manager.

Further information on investment issues is detailed in the Statement of Investment Principles ("SIP") prepared by the Trustee in accordance with the requirements of the Pensions Act 1995. The Trustee has obtained written advice on the preparation of the SIP from its investment consultant, Lane Clark & Peacock LLP ("LCP"). The SIP in force during the Fund year under review was dated June 2022. It was reviewed and updated in July 2024 to reflect the addition of the CSPF Global ESG Focussed Fund to the Fund's self-select range within the DC section, as well as some updates to certain policies around stewardship and the use of illiquid investments in the DC section. More details related to these changes can be found in the Fund's Implementation Statement on pages 88 to 99.

The SIP can be found on the Fund website: <https://www.mycspensionplace.co.uk/document-library/> as well as on pages 70 to 85 of this report.

For the purpose of this report the investment information has been disclosed under Defined Benefit and Defined Contribution Sections as appropriate.

The Trustee's Implementation Statement, which sets out, amongst other things, voting and engagement information undertaken by the Fund's investment managers for the year ended 31 December 2023, is set out on pages 88 to 99, and forms part of the Trustee's Report.

The Trustee has considered the nature, disposition, marketability, security and valuation of the Fund's DB and DC investment portfolios and consider them to be appropriate relative to the reasons for holding each class of investment. Further details about investments are also given in the notes to the financial statements.

Approach to social, environmental and ethical investing

The Trustee has considered how environmental, social, governance (“ESG”) and ethical matters should be taken into account in the selection, retention and realisation of investments since it recognises that these factors can be relevant to investment performance and are therefore considered as financial factors.

The Trustee considers it is necessary to act in the best financial interests of Fund members and therefore it expects its investment managers to take account of financially material considerations (including climate change and other ESG considerations), taking into account the nature and time horizon of the investments. It seeks to appoint managers, with the assistance of its Investment Consultant, that have appropriate skills and processes to do this, and from time to time review how its managers are taking account of these issues in practice.

The Trustee cannot usually directly influence investment managers’ policies on ESG and ethical factors where assets are held in pooled funds; this is due to the nature of these investments. The Trustee seeks to encourage its managers to improve their practices where appropriate through engaging with them on these issues.

The Fund’s Investment Consultant reviews the fund managers’ ESG policies on a regular basis as part of its manager research process. The Investment Consultant assigns a score from 1 (weak) to 4 (strong) taking into account the manager’s approach to managing ESG-relating risks and its stewardship practices such as exercising voting rights and engaging with company management. The Trustee reviews the Responsible Investment scores assigned to the funds used within the Fund’s investment strategy on an annual basis and before appointing new managers.

The Trustee also receives presentations from its managers on how ESG-related issues are taken into account in their investment processes. The Trustee will challenge the fund manager’s approaches where appropriate and will report on ESG-related issues in relation to the Fund’s investment strategy as part of its annual Implementation Statement and, where appropriate, its annual Climate Change report.

The Trustee does not take into account any non-financial factors (i.e. factors not motivated by considerations of financial risk and return) when making investment decisions. The Trustee is satisfied that it has good reason to think Fund members share its view and that there is no risk of material financial detriment to the Fund.

The Global ESG Aware Equity Fund is used in the DC Section’s default strategy and self-select fund range. The Trustee offers members an ethical fund within the DC Section (which closed to new members on 31 March 2022). Amongst others, a Shariah-compliant fund and an actively managed ESG fund are available on a self-select basis for members to invest in if they choose.

Approach to voting rights

The Trustee recognises its responsibilities as an owner of capital, and believes that good stewardship practices, including monitoring and engaging with investee companies, protect and enhance the long-term value of investments. The Trustee has delegated to its investment managers the exercise of rights attaching to investments, including voting rights, and engagement with issuers of debt and equity and other relevant persons about relevant matters such as performance, strategy, capital structure, management of actual or potential conflicts of interest, risks and ESG considerations.

The Trustee does not monitor or engage directly with issuers or other holders of debt or equity. The Trustee expects its investment managers to exercise ownership rights and undertake monitoring and engagement in line with the managers’ general policies on stewardship, as provided to the Trustee from

time to time,

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

considering the long-term financial interests of the beneficiaries. The Trustee seeks to appoint managers that have strong stewardship policies and processes, reflecting where relevant the recommendations of the UK Stewardship Code issued by the Financial Reporting Council, and from time to time the Trustee reviews how these are implemented in practice.

1. Defined Benefit (DB) Section

The primary objective for the DB Section is to ensure that the Fund should be able to meet benefit payments as they fall due. There are a number of secondary objectives that the Trustee also considers, full details of which can be found in the Statement of Investment Principles. The Trustee, with the help of its advisors and in consultation with the Company, has reviewed the investment strategy, taking into account the objectives.

As at 31 December 2023, the Fund's strategic asset allocation is as follows:

Asset Class	Strategic Allocation	Actual Allocation
Bonds	12.0%	15.3%
Liability hedging portfolio (inc. cash)	88.0%	84.7%

The Fund's asset allocation as at 31 December 2023 deviated from the strategic allocation due to the impact of market movements.

The deviation of the actual allocation from the strategic allocation is reviewed by the Trustee on a quarterly basis. Post year end, the Trustee amended the Funds hedging ratios to hedge 107% of the interest rate and 107% of inflation risk of the accrued liabilities of the Fund (on a technical provisions basis).

Over the year to 31 December 2023, the investment managers appointed to manage the assets of the Defined Benefit Sections were as shown in the table below.

Manager	Asset Class	Holding % 31/12/2023	Holding % 31/12/2022	Benchmark Index
PIMCO	Bonds	5.4	5.6	30% UK Gilt 4.75% 2030, 70% US Treasury 5.375% 2031

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

¹ Proxy liability benchmark defined by a set of notionals intended to represent about 100% of the Fund's accrued liabilities valued on a Technical Provision basis plus the return on a portfolio of USD, EUR and GBP interest rate swaps to hedge the overseas interest rate risk in the credit portfolio.

Each manager has daily liquidity.

Investment performance

Over the year to 31 December 2023, the overall return (for the Defined Benefit Section's assets) was 1.0% (according to calculations conducted by LCP), compared with a composite benchmark of 0.3%. The three-year return was -15.4% pa compared with a composite benchmark of -15.7% pa, and the five-year return was -4.7% pa compared with a composite benchmark of -5.2% pa.

A review of the investment performance for each of the managers in the Defined Benefit Sections, over the year, three-year and five-year periods to 31 December 2023, is shown below. All returns are stated net of fees.

Manager	Asset Class	1 year %	1 year target %	3 years % p.a.	3 years target % p.a.	5 years % p.a.	5 years target % p.a.

Inception dates are as follows: Insight LDI 31 July 2012; Global Credit (Bond) portfolios 10 October 2017

2. Defined Contribution (DC) Sections

The Trustee's primary objectives for the DC Section are to provide members with access to:

- an appropriate range of investment options, reflecting the membership profile of the DC Section and the variety of ways that members can draw their benefits in retirement; and
- a default investment option that the Trustee believes to be reasonable for those members that do not wish to make their own investment decisions. The objective of the default option is to generate returns above inflation whilst members are some distance from retirement, but then to switch automatically and gradually to lower risk investments as members near retirement.

The Fund offers a Lifestyling strategy plus a certain number of funds available for self-selection including funds considered appropriate for members wishing to invest consistently with Islamic or broadly ethical principles. The Lifestyling strategy is intended for members intending to transfer the value at retirement towards drawdown (the default), annuity purchase or cash.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

The main Lifestyling composite fund is the CSPF Drawdown Lifestyle Strategy (main default arrangement) which comprises:

1. Fund first invested in 2022 so 3 and 5 year performance data is not yet available.
2. The combination of the low-carbon equity fund and the emerging market equity fund has replaced the allocation within the default arrangement to the Global Equity 50/50 Index Fund. (Note, there are funds remaining in the Global Equity 50/50 Index Fund related to self-select members).
3. Fund first invested in April 2023 so performance data is not yet available.

Notes to Tables

All the performance data has been sourced from Fidelity (except for the target returns for the Threadneedle Property Fund, which has been sourced directly from Threadneedle) and is shown net of the annual management charges levied by the investment managers and the administration charges levied by Fidelity. The BlackRock Japanese Equity Index Fund shows larger deviation from its target than the Trustee would expect, this is a function of Fidelity performance reporting - using Dealing Net Asset Value which is impacted by price swings. The Trustee is satisfied that the underlying fund has tracked its target. Values may not sum due to rounding.

All the Defined Contribution funds have daily liquidity.

Custody of assets

The Trustee is responsible for ensuring that the Fund's assets are securely held, and it reviews the custodian arrangements from time to time.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Northern Trust is the custodian of the assets invested under the Defined Benefit Sections. Investments in the Defined Contribution Sections are represented by units in unit-linked insured funds and the Trustee does not directly own the underlying investments.

DC benefits have generally been secured by unit-linked insurance policies provided by FIL Life Insurance Limited amounting to £1,169m as at 31 December 2023. Of this amount £1,070m is backed by securities directly held by FIL Life and £99m by unit-linked reinsurance contracts with third party insurers in accordance with normal market practice. The Trustee understands that such reinsurance contracts lie outside the scope of the Financial Services Compensation Scheme ("FSCS") and, in the event of failure of the reinsurer, would not be eligible for FSCS compensation. The Trustee has confirmed that FIL Life holds security over sufficient assets of the reinsurers to cover the value of these contracts (although the value of the underlying assets and of the contracts could be affected by fraud or other loss of underlying assets), that the reinsurers' exposure to businesses other than such unit-linked insurance is insignificant. The Trustee had taken legal advice and had concluded that the use of reinsurance contracts is a normal market practice, that the risk of default is minimal and that DC members' benefits are adequately protected. However, the Trustee notes that, since no such UK reinsurer has ever failed, these protections have not been tested in court.

All of the investment managers listed in the legal and administrative information are regulated by the Financial Conduct Authority.

Climate Change Governance and Reporting

The Pension Schemes Act 2021 introduced legislation requiring specified pension schemes to ensure that there is effective governance with respect to the effects of climate change.

A report has been prepared by the Trustee to comply with the Occupational Pension Schemes (Climate Change Governance and Reporting) Regulations 2021 using the Department for Work and Pensions ("DWP") statutory guidance. The Fund is required to have in place effective governance, strategy, risk management, and accompanying metrics and targets for the assessment and management of climate risks and opportunities, and to produce a report.

The report explains how the Trustee has established and maintained oversight and processes to satisfy themselves that the Fund's relevant climate-related risks and opportunities are considered appropriately by all stakeholders involved in the day-to-day management of the Fund.

The Fund's report for the year ended 31 December 2023 can be found at <https://www.mycspensionplace.co.uk/pdf/csg-csgpf-tcfd-report-year2-20231231-webs.pdf>

Statement of Trustee's responsibilities

The Trustee's responsibilities in respect of the financial statements

The financial statements, which are prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including the Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102"), are the responsibility of the Trustee. Pension scheme regulations require, and the Trustee is responsible for ensuring, that those financial statements:

- show a true and fair view of the financial transactions of the Fund during the Fund year and of the amount and disposition at the end of the Fund year of its assets and liabilities, other than liabilities to pay pensions and benefits after the end of the Fund year; and
- contain the information specified in Regulation 3A of the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, including making a statement whether the financial statements have been prepared in accordance with the relevant financial reporting framework applicable to occupational pension schemes.

In discharging these responsibilities, the Trustee is responsible for selecting suitable accounting policies, to be applied consistently, making any estimates and judgements on a prudent and reasonable basis, and for ensuring that the financial statements are prepared on a going concern basis unless it is inappropriate to presume that the Fund will continue as a going concern.

The Trustee is also responsible for making available certain other information about the Fund in the form of an annual report.

The Trustee has a general responsibility for ensuring that accounting records are kept and for taking such steps as are reasonably open to it to safeguard the assets of the Fund and to prevent and detect fraud and other irregularities, including the maintenance of an appropriate system of internal control.

The Trustee is also responsible for the maintenance and integrity of the mycspensionplace website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Trustee's responsibilities in respect of contributions

The Trustee is responsible under pensions legislation for preparing, and from time to time reviewing and if necessary revising, a schedule of contributions showing the rates of contributions payable to the Fund by or on behalf of employers and the active members of the Fund and the dates on or before which such contributions are to be paid.

The Trustee is also responsible for keeping records in respect of contributions received in respect of any active member of the Fund and for adopting risk-based processes to monitor whether contributions that fall due to be paid are paid into the Fund in accordance with the schedule of contributions.

Where breaches of the schedule occur, the Trustee is required by the Pensions Acts 1995 and 2004 to consider making reports to the Pensions Regulator and to members.

This report on pages 7 to 25 has been approved by the Trustee and is signed on its behalf by:

Chris Martin

Trustee Director

Date: 30 July 2024

Chair's DC Governance Statement, covering 1 January 2023 to 31 December 2023 (the fund year)

1. Introduction

The Credit Suisse Group (UK) Pension Fund (the "Fund") is an occupational pension scheme providing both defined benefit and defined contribution ("DC") benefits. A DC pension scheme is where employee and employer contributions are paid into it, and the member chooses their investments (or is invested in the default option), as well as bearing the investment risk).

DC benefits in the Fund are provided mainly under the DC Plus section of the Fund but there are also a number of legacy DC sections, namely:

- Money Purchase section
- BZW Money Purchase section
- Donaldson, Lufkin & Jenrette International Savings – Defined Contribution section
- CSAM section

Some members also have Additional Voluntary Contributions ("AVCs").

Governance requirements apply to DC pension arrangements, to help members achieve a good outcome from their pension savings. The Trustee is required to produce a yearly statement (signed by the Chair of Trustees) covering:

- the design and oversight of the default investment option;
- processing of core financial transactions (ie administration of the Fund);
- the charges and transaction costs borne by members for the default option and any other investment option members can select or have assets in, such as "legacy" funds;
- an illustration of the cumulative effect of these costs and charges;
- net returns of the investment options;
- how the value members obtain from the Fund is assessed; and
- Trustee knowledge and understanding.

Until 31 July 2023, the trustee of the Fund was Credit Suisse First Boston Trustees Limited (the "Previous Trustee"). The Previous Trustee was replaced as trustee of the Fund with the appointment of a professional corporate sole trustee, Independent Trustee Services Limited (referred to as "ITS").

ITS was appointed as trustee of the Fund with effect from 1 August 2023. References to 'Trustee' in this Statement, in respect of the period prior to 1 August 2023, refer to the Previous Trustee and references to 'Trustee' in this Statement in respect of the period from 1 August 2023 to the end of the fund year, refer to ITS.

The key points that the Trustee would like members reading this Statement to take away are as follows:

- The Trustee regularly monitors the investment arrangements and the Trustee is satisfied that the default and other investment options remain suitable for the membership. Over the Fund year, the Global ESG Focussed Equity Fund was added to the self-select range to give members access to an actively managed fund which explicitly take into account environmental, social and governance ('ESG') factors.
- The administrator has processed core financial transactions promptly and accurately to an acceptable level during the Fund year, and the Trustee remains comfortable with the administrator's performance.
- Fees can have a material impact on the value of your pension savings and the fee impact is greater the more time passes, since fees reduce the amount of money that can grow with future investment returns.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

- Fees for the investment options are set out in this Statement, and the Trustee remains comfortable that these fees are reasonable given the circumstances of the Fund and represent value for the benefits members obtain.
- Please rest assured that the Trustee is looking after your best interests as members, and the Trustee undertakes training and receive advice as appropriate so that the Trustee has sufficient knowledge and understanding to do so effectively.

2. Default arrangements

The Trustee has made available a range of investment options for members. Members who join the Fund and who do not choose an investment option are placed into the CSPF Drawdown Lifestyle Strategy (the “Default”). The Trustee recognises that most members do not make active investment decisions and instead invest in the Default. After taking advice, the Trustee decided to make the Default a lifestyle strategy, which means that members’ assets are automatically moved between different investment funds as they approach their target retirement date. In the case of the Fund’s member population, the Trustee determined that most would be expected to take the maximum tax free lump sum and to draw benefits thereafter by means of drawdown from a portfolio including a significant proportion of return-seeking assets.

The BlackRock Money Market Fund is also classified as a temporary default. The Threadneedle Property Fund was temporarily suspended from trading between 20 March 2020 and 16 September 2020 as a result of the Covid-19 pandemic. Between these dates, members’ contributions were redirected to the BlackRock Money Market Fund (formerly named the BlackRock Cash Fund). The suspension was lifted on 17 September 2020, in line with many other property managers who reopened their funds during September and October 2020. The BlackRock Money Market Fund remains as a default until such a point that it no longer contains defaulted assets. It continued to hold defaulted assets at the Fund year end.

The Trustee is responsible for investment governance, which includes setting and monitoring the investment strategy for the default arrangements.

Details of the objectives and policies regarding the default arrangements are set out in a document called the ‘Statement of Investment Principles’ (“SIP”). The Fund’s SIP was updated on 10 July 2024 (i.e. following the Fund year end) to include wording on the Trustee’s policy on illiquid investments, stewardship priorities and the addition of the Global ESG Focussed Equity Fund which was made available to members during the Fund year. This SIP is attached as Appendix 1 to this annual Statement. Please note that any reference to the SIP in this Statement is referring to the latest SIP dated 10 July 2024..

The Default was not formally reviewed during the Fund year. The last review commenced on 20 May 2021 and was completed on 1 October 2021. As part of this review, the Trustee considered the demographics of the Fund’s membership, including how members were accessing their benefits at retirement, and whether the default arrangement remained appropriate.

Whilst most of the changes resulting from the review were implemented during the previous Fund year in March 2022, the Trustee agreed to add an active equity fund with an ESG focus, the addition of which was delayed due to developments in respect of the underlying fund. The review process continued over 2022 and early 2023 and the CSPF Global ESG Focussed Equity Fund was added to the self-select fund range at the end of April 2023.

The Trustee regularly monitors the performance of the Default and formally reviews the strategy at least every three years. The next review is currently underway and the Trustee will include details in next year’s Statement.

In addition to triennial strategy reviews the Trustee also reviews the performance of the Default against its objectives on a quarterly basis. This review includes performance analysis to check that the risk and return levels meet expectations. The Trustee’s reviews over the Fund year concluded that the default arrangement was performing broadly as expected and consistently with the aims and objectives as stated in the SIP.

Asset allocation breakdown

The Trustee is required to calculate the percentage of the Fund assets within the Default arrangement allocated to each of the following asset classes. In line with DWP’s guidance the Trustee has also shown this asset allocation for different ages as at the Fund year end. A retirement age of 60 has been assumed as this is the target retirement age

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

for most members (c.94% as at 31 December 2023) in the Fund.

CSPF Drawdown Lifestyle Strategy

Asset class	Allocation 25 y/o %	Allocation 45 y/o %	Allocation 55 y/o %	Allocation at retirement %
Cash	0.0	0.0	4.2	25.0
Corporate bonds (UK and overseas)	0.0	0.0	4.6	7.5
UK government bonds	0.0	0.0	9.2	15.0
Overseas government bonds	0.0	0.0	4.6	7.5
Listed equities	100.0	100.0	77.5	45.0
Private equity	0.0	0.0	0.0	0.0
Infrastructure (direct)	0.0	0.0	0.0	0.0
Property (direct)	0.0	0.0	0.0	0.0
Private debt	0.0	0.0	0.0	0.0
Other	0.0	0.0	0.0	0.0

As mentioned above, the BlackRock Money Market Fund was also considered a temporary default during the Fund year. This Fund's allocation does not vary by age and it has a 100% allocation to cash.

3. Self select funds

The Fund also provides a range of self-select funds for members who wish to choose their own investments. Other than the addition of the Global ESG Focussed Equity Fund to the self-select range to give members access to an actively managed fund which explicitly take into account environmental, social and governance factors, there were no changes made to the range of self-select funds available to members during the Fund year.

The self-select range of funds was not formally reviewed during Fund year but a formal review is currently underway and the Trustee will include details of this review in next year's Statement.

The performance of all self-select funds is monitored by the Trustee using quarterly investment reports provided by the Fund's appointed investment advisers, Lane Clark & Peacock LLP.

4. Requirements for processing core financial transactions

The processing of core financial transactions is carried out by the administrator of the Fund, Fidelity. Core financial transactions include (but are not limited to): the investment of contributions, processing of transfers in and out of the Fund, transfers of assets between different investments within the Fund, and payments to members/beneficiaries.

The Trustee recognises that delay and error can cause significant issues for members. The Trustee has received assurance from Fidelity that there are adequate internal controls to support prompt and accurate processing of core financial transactions, and this is reflected in the Fidelity AAF report dated 13 October 2023. An AAF report is a report prepared on the internal controls of an organisation which offers assurance over outsourced services, specifically elements which would affect financial reporting.

The Fund has a Service Level Agreement ("SLA") in place with the administrator which covers the accuracy and timeliness of all core financial transactions. To help monitor whether service levels are being met, the Trustee receives quarterly reports about the administrator's performance and compliance with the SLA. Any issues identified as part of the review processes are raised with the administrators immediately, and steps taken to resolve the issues.

As part of the reporting process, the Trustee Chief Operating Officer ("COO") to the Fund has received additional detail and explanations where transactions were not completed within the agreed SLAs and, prior to the appointment of the new Trustee, any exceptions were discussed with the Operations Working Group on a quarterly basis with the

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

administrator in attendance. Following the new Trustee's appointment with effect from 1 August 2023, Operations meetings are now held monthly between the COO team and the administrator where such exceptions are discussed.

The administrator also monitors the quality of the work undertaken by its administration teams through an internal but operationally independent Quality Control team who ensure that the processing teams operate in a controlled environment by checking calculations and monitoring the existing procedures and controls.

Based on its review processes, the Trustee is satisfied that over Fund year:

- the administrator was operating appropriate procedures, checks and controls, and operating within the agreed SLA;
- there have been no material administration issues in relation to processing core financial transactions; and
- core financial transactions have been processed promptly and accurately to an acceptable level during the Fund year.

5. Member-borne charges and transaction costs

The Trustee is required to set out the on-going charges incurred by members over the period covered by this Statement, which are annual fund management charges plus additional fund expenses, such as custody costs, but excluding transaction costs; this is also known as the total expense ratio ("TER"). The TER is paid by the members and is reflected in the unit price of the funds.

The stated charges are shown as a per annum ("pa") figure and include any administration charges, since members incur these.

The Trustee is also required to disclose transaction cost figures. In the context of this Statement, the transaction costs shown are those incurred when the Fund's fund managers buy and sell assets within investment funds but are exclusive of any costs incurred when members invest in and switch between funds. The TER and transaction costs are the only costs borne by members.

The charges and transaction costs have been supplied by Fidelity, the Fund's platform provider. As at the time of writing, Fidelity has been unable to obtain transaction costs as at 31 December 2023 for the HSBC Islamic Fund, L&G Global Emerging Markets Index Fund, L&G Overseas Bond Fund and L&G Ethical UK Equity Index Fund. Therefore, these transaction costs have been shown over the year to 30 September 2023. The Trustee (via its investment advisers) will continue to press Fidelity to provide transaction costs over the year to 31 December 2023.

When preparing this section of the Statement the Trustee has taken account of the relevant statutory guidance. Under the prescribed way in which transaction costs have been calculated it is possible for figures to be negative, where market movements are favourable between the time a trade is placed and it is executed. We have shown any negative figures in the tables for the year as provided, but for the costs and charges illustrations zero has been used where a transaction cost is negative to give a more realistic projection (i.e. the Trustee would not expect transaction costs to be negative over the long term).

6. Default arrangements

The default arrangement is the CSPF Drawdown Lifestyle Strategy. The Default has been set up as a lifestyle approach, which means that members' assets are automatically moved between different investment funds as they approach their target retirement date. This means that the level of charges and transaction costs will vary depending on how close members are to their target retirement age and in which funds they are invested.

For the period covered by this Statement, annualised charges and transaction costs are set out in the following table.

Default charges and transaction costs (% per annum)

Years to target retirement date	TER	Transaction costs
20 or more years to retirement	0.18	0.04
15 years to retirement	0.18	0.04

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Years to target retirement date	TER	Transaction costs
10 years to retirement	0.18	0.04
5 years to retirement	0.17	0.03
At retirement	0.18	0.02

As noted earlier in the Statement, the BlackRock Money Market Fund is classified as a temporary default and so for the period covered by this Statement, annualised charges and transaction costs are set out in the following table.

BlackRock Money Market Fund

Manager – Fund name	TER	Transaction costs
BlackRock Money Market Fund	0.23	0.02

7. Self-select and AVC options

In addition to the default arrangements, members also have the option to invest in two other lifestyles, targeting annuity purchase and cash withdrawal as well as several other self-select funds. The annual charges for these lifestyles during the period covered by this Statement are set out in the tables below.

CSPF Annuity Lifestyle Strategy charges and transaction costs (% per annum)

Years to target retirement date	TER	Transaction costs
20 or more years to retirement	0.18	0.04
15 years to retirement	0.18	0.04
10 years to retirement	0.18	0.04
5 years to retirement	0.17	0.03
At retirement	0.17	0.03

CSPF Cash Lifestyle Strategy charges and transaction costs (% per annum)

Years to target retirement date	TER	Transaction costs
20 or more years to retirement	0.18	0.04
15 years to retirement	0.18	0.04
10 years to retirement	0.18	0.04
5 years to retirement	0.18	0.03
At retirement	0.23	0.02

The level of charges for each self-select fund (including those used in the Default) and the transaction costs over the period covered by this Statement are set out in the following table. The underlying funds used within the Default are shown in **bold**.

Self-select fund charges and transaction costs (% per annum)

Fund name	TER	Transaction costs
Global ESG Aware Equity Fund	0.18	0.04
Passive Multi Asset Fund	0.16	0.02
BlackRock Money Market Fund	0.23	0.02
BlackRock Global 50/50 Index Fund	0.14	0.03
Global Equity Fund	0.18	0.03

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Fund name	TER	Transaction costs
BlackRock Over 15 Year Gilts Index Fund	0.14	0.03
BlackRock European Equity Index Fund	0.17	0.01
BlackRock Japanese Equity Index Fund	0.17	0.01
BlackRock Over 5 Years Index Linked Gilt Index Fund	0.14	0.03
BlackRock Pacific Rim Equity Index Fund	0.17	-0.01
BlackRock UK Equity Index Fund	0.15	0.09
BlackRock US Equity Index Fund	0.17	0.02
HSBC Islamic Fund ¹	0.51	-0.09
Global ESG Focussed Equity Fund ²	0.59	0.06
L&G Global Emerging Markets Index Fund ¹	0.51	0.09
L&G Overseas Bond Fund ¹	0.26	-0.02
L&G Ethical UK Equity Index Fund ¹	0.35	0.05
Fidelity Corporate Bond Fund	0.40	-0.04
Threadneedle Property Fund	0.96	-0.02

¹Please note that Fidelity has not been able to provide transaction costs over the year to 31 December 2023 for this fund. Transaction costs for the HSBC Islamic Fund have been shown over the year to 30 September 2023.

²The Fund was introduced during the Fund year at the end of April 2023. Please note that Fidelity has not been able to provide transaction costs over the year to 31 December 2023 for this fund. Transaction costs for the Global ESG Focussed Equity Fund have been shown over the year to 31 October 2023.

Charges and transaction costs for the Fund's AVC arrangements over the reporting period have not yet been received. The Trustee (directly and via its investment consultant) continues to follow-up with the AVC providers (via Fidelity, in their capacity as the Fund administrator) for this information.

8. Illustration of charges and transaction costs

The following table sets out an illustration of the impact of charges and transaction costs on the projection of an example member's pension savings. In preparing this illustration, the Trustee had regard to the relevant statutory guidance.

- The "before costs" figures represent the savings projection assuming an investment return with no deduction of member borne charges or transaction costs. The "after costs" figures represent the savings projection using the same assumed investment return but after deducting member borne charges and an allowance for transaction costs.
- The transaction cost figures used in the illustration, unless otherwise stated, are those provided by the managers over the past five years, subject to a floor of zero (so the illustration does not assume a negative cost over the long term). However, please note that transaction costs average over three years has been used for the CSPF Global ESG Aware Equity Fund, as longer-term data is not available due to the Fund's inception date.
- The illustration is shown for the default (the CSPF Drawdown Lifestyle Strategy), as well as two funds from the Fund's self-select fund range. The BlackRock Money Market Fund is also shown as it is currently a temporary default. The two self-select funds shown in the illustration are:

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

- the fund with highest annual member borne costs (TER plus Fund year transaction costs) – this is the Threadneedle Property Fund; and the fund with lowest annual member borne costs – this is the BlackRock

Projected pension pot in today's money

25	£232,900	£220,400	£88,800	£83,400	£146,700	£114,300	£389,200	£373,000
30	£239,600	£224,400	£82,300	£76,400	£150,400	£111,500	£485,000	£460,800

Pacific Rim Equity Index Fund.

Notes

- Values shown are estimates and are not guaranteed. The illustration does not indicate the likely variance and volatility in the possible outcomes from each fund. The numbers shown in the illustration are rounded to the nearest £100 for simplicity.
- Projected pension pot values are shown in today's terms, and do not need to be reduced further for the effect of future inflation. The long term annual inflation assumption used is 2.5%.
The starting pot size used is £66,400. This is the approximate average (median) pot size for all members in the Fund.
- As approximately 96% of members are deferred and the Fund is closed to new entrants, no contributions have been assumed.
- The projection is for 30 years, being the approximate duration that the youngest Fund member has until they reach the scheme's Normal Pension Age.
- The projected annual returns used are as follows:
 - Default option: 2.5% above inflation for members furthest from retirement, moving to 0.0% for members at retirement.
 - BlackRock Money Market Fund: 1.5% below inflation.
 - Threadneedle Property Fund: 0.5% above inflation.
 - BlackRock Pacific Rim Equity Index Fund: 4.5% above inflation.
- No allowance for active management outperformance has been made.

9. Investment returns

This section shows the annual return, after the deduction of member borne charges and transaction costs, for all investment options in which member assets were invested during the Fund year. The Trustee has had regard to the statutory guidance in preparing this Section.

Investment returns for the Fund's AVC arrangements (other than for Prudential) over the reporting period have not been received yet. The Trustee continues to follow-up with the AVC providers (via Fidelity, in its capacity as the DB administrator) for this information.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

For arrangements where returns vary with age, such as for the default strategy, returns are shown over the Fund year for a member aged 25, 45 and 55 at the start of the period the returns are shown over. A retirement age of 60 has been assumed as this is the target retirement age for most members (c94% as at 31 December 2023) in the Fund.

Default lifestyle net returns over periods to Fund year end

Age of member at the start of the period	1 year (%)	5 years (% pa)
25	15.5	8.5

Standard Life Pension Millennium With-Profits Fund	[TBC]	[TBC]
Standard Life With-Profits Fund	[TBC]	[TBC]

¹At the time of writing, we are waiting on all with-profits providers excluding Prudential to provide the investment return information. We have also queried the Prudential Deposit figures and 5 year return figures for the Prudential Dynamic Growth I Fund with Prudential and are awaiting a reply. The Trustee continues to follow up for this information via its investment adviser.

11. Value for members assessment

The Trustee is required to assess every year the extent to which member borne charges and transaction costs represent good value for members and to explain that assessment. There is no legal definition of 'good value' which means that determining this is subjective. Our general policy in relation to value for member considerations is set out below.

The Trustee reviews all member-borne charges (including transaction costs where available) annually, with the aim of ensuring that members are obtaining value for money given the circumstances of the Fund. The date of the last review was 8 May 2024. The Trustee notes that value for money does not necessarily mean the lowest fee, and the overall quality of the service received has also been considered in this assessment. Its investment advisers have confirmed that the fund charges are competitive for the types of fund available to members.

The assessment included a review of the performance of the Fund's investment funds (after all charges and transaction costs) in the context of their investment objectives. The returns on the investment funds members can choose during the period covered by this statement have been consistent with their stated investment objectives.

In carrying out the assessment, the Trustee also consider the other benefits members receive from the Fund, which include

- the Trustee's oversight and governance, including ensuring the Fund is compliant with relevant legislation, and holding regular meetings to monitor the Fund and address any material issues that may impact members;
- the design of the default arrangements and how this reflects the interests of the membership as a whole;
- the range of investment options and strategies;
- the quality of communications delivered to members;
- the quality of support services, such as the Fund website where members can access fund information online; and
- the efficiency of administration processes and the extent to which the administrator met or exceeded its service level standards.

As detailed in the earlier section covering the processing of core financial transactions, the Trustee is comfortable with the quality and efficiency of the administration processes.

The Trustee believes that the transaction costs provide value for members as the ability to transact forms an integral part of the investment approaches and expect this to lead to greater investment returns net of costs over time.

Overall, the Trustee believes that members of the Fund are receiving good value for money for the charges and cost that they incur, for the reasons set out in this section. The Trustee continue to assess and look for ways to improve value for members and plan to undertake a review of the investment arrangements over the upcoming Fund year as well as completing its review of the Fund against the Pensions Regulator's General Code.

12. Trustee knowledge and understanding

The Trustee is required to maintain appropriate levels of knowledge and understanding to run the Fund effectively. The Trustee has measures in place to comply with the legal and regulatory requirements regarding knowledge and understanding of relevant matters, including investment, pension and trust law. Details of how the knowledge and understanding requirements have been met during the Fund year are set out below.

As mentioned earlier, with effect from 1st August 2023, ITS, part of the Independent Governance Group (IGG), became the sole professional trustee of the Fund, replacing the Previous Trustee.

The ITS Board authorised Chris Martin and Akash Rooprai to be the nominated trustee directors to act on behalf of ITS as trustee of the Fund.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Both Chris and Akash are accredited professional trustees, accredited by the Association of Professional Pension Trustees ("APPT") and, as such are obliged to carry out a minimum number of hours of continuous professional development ("CPD") each year to maintain their accreditation with the APPT. This CPD is documented, logged and shared with the APPT each year as part of the professional trustee accreditation renewal process.

IGG has a rigorous technical training programme in place for all staff with regular training sessions usually held weekly. During the Fund year, the Trustee received training on multiple topical pensions matters as well as focused training on climate change, which involved 6 two hour sessions. This training was completed in March 2024.

During the Fund year up to 31st July 2023 regular training was provided to the Previous Trustee on aspects of the Trustee Knowledge and Understanding requirements from the Fund advisers. The previous Trustee also undertook training relating to topical items or specific issues under consideration.

In relation to both the Previous Trustee in respect of the part of the Fund year up prior to 31st July 2023, and ITS in respect of the part of the Fund year following since its appointment on 1st August 2023, the Trustee can confirm that

- The Trustee regularly considers training requirements to identify any knowledge gaps and then worked with the Trustee's advisers to undertake appropriate training to address those gaps.
- The Trustee's advisers proactively raised any changes in governance requirements and other relevant matters which arose as they become aware of them during the Fund year. The Trustee's advisers also typically delivered training on such matters during the Fund year at Trustee meetings where needed.
- The Trustee is familiar with and has access to copies of the Fund's governing documentation and documentation setting out its policies, including the Trust Deed and's Rules and SIP (which sets out the policies on investment matters). In particular, the Trustee refers to the Trust Deed and Rules as part of considering and deciding to make any changes to the Fund, and the SIP is formally reviewed annually and as part of making any change to the Fund's investments.
- The Trustee believes that it has sufficient knowledge and understanding of the law relating to pensions and trusts and of the relevant principles relating to the funding and investment of occupational pension schemes to fulfil its duties.
- Considering the Trustee's knowledge and experience, the training it has undertaken and the specialist advice received from the appointed professional advisors (e.g. investment consultants, legal advisors), the Trustee believes that it is well placed to exercise its functions as Trustee of the Fund properly and effectively.

Chris Martin

Date: 30 July 2024

Signed by the Chair of Trustee of the Credit Suisse Group (UK) Pension Fund

Independent auditors' report to the trustee of Credit Suisse Group (UK) Pension Fund

Report on the audit of the financial statements

Opinion

In our opinion, Credit Suisse Group (UK) Pension Fund's financial statements:

- show a true and fair view of the financial transactions of the fund during the year ended 31 December 2023, and of the amount and disposition at that date of its assets and liabilities, other than liabilities to pay pensions and benefits after the end of the year;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- contain the information specified in Regulation 3A of the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996.

We have audited the financial statements, included within the Annual Report and Financial Statements, which comprise: the Statement of Net Assets available for benefits as at 31 December 2023; the Fund Account for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to other entities of public interest, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided to, or in respect of, the fund.

We have provided no non-audit services to the fund in the period under audit.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the fund's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the trustee's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the fund's ability to continue as a going concern.

Our responsibilities and the responsibilities of the trustee with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Financial Statements other than the financial statements, our auditors' report thereon and our auditors' statement about contributions. The trustee is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Responsibilities for the financial statements and the audit

Responsibilities of the trustee for the financial statements

As explained more fully in the statement of trustee's responsibilities, the trustee is responsible for ensuring that the financial statements are prepared in accordance with the applicable framework and for being satisfied that they show a true and fair view. The trustee is also responsible for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In the preparation of the financial statements, the trustee is responsible for assessing the fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustee either intends to wind up the fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Based on our understanding of the fund and its environment, we identified that the principal risks of non-compliance with laws and regulations related to the administration of the fund in accordance with the Pensions Acts 1995 and 2004 and regulations made under them, and codes of practice issued by the Pensions Regulator; and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered the direct impact of these laws and regulations on the financial statements. We evaluated incentives and opportunities for fraudulent manipulation of the financial statements, including the risk of override of controls, by the trustee and those responsible for, or involved in, the preparation of the underlying accounting records and financial statements, and determined that the principal risks were related to posting inappropriate journals to conceal misappropriation of assets and inappropriate adjustments of asset valuations. Audit procedures performed by the engagement team included:

- Testing journal entries where we identified particular fraud risk criteria.
- Obtaining independent confirmations of material investment valuations and cash balances at the year end.
- Testing estimates and judgements made in the preparation of the financial statements for indicators of bias.
- Reviewing meeting minutes, any correspondence with the Pensions Regulator, and significant contracts and agreements.
- Holding discussions with the trustee to identify significant or unusual transactions and known or suspected instances of fraud or non-compliance with applicable laws and regulations.
- Assessing financial statement disclosures, and agreeing these to supporting evidence, for compliance with the Pensions Acts 1995 and 2004 and regulations made under them.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinion, has been prepared for and only for the trustee as a body in accordance with section 41 of the Pensions Act 1995 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Total net assets available for benefits		2,451,142	2,378,564

The financial statements summarise the transactions of the Fund and deal with the net assets at the disposal of the Trustee. They do not take account of obligations to pay pensions and benefits which fall due after the end of the Fund year. The actuarial position of the Fund, which takes into account such obligations for the defined benefit section, is dealt with in the Report on Actuarial Liabilities on pages 10 and 11 of the annual report, and these financial statements should be read in conjunction with this report. **The financial statements on pages 40 to 66 were approved by the Trustee and signed on its behalf by:**

Chris Martin

Trustee Director
Date: 30 July 2024

Notes to the Financial Statements

1. General information

The Credit Suisse Group (UK) Pension Fund (the “Fund”) is a hybrid occupational pension scheme, established under trust and under the jurisdiction of English law. The Fund was established to provide retirement benefits for certain groups of employees of Credit Suisse International (the “Principal Employer” or “Company”) and the Participating employers listed on page 3 (together the “Employers”). The Fund incorporates defined benefit (DBS) and defined contribution (DCS) sections. The DBS is closed to new members but the DCS remains open.

The address for the Fund is 4th Floor, Cannon Place, 78 Cannon Street, London EC4N 6HL.

2. Basis of preparation

The individual financial statements of Credit Suisse Group (UK) Pension Fund have been prepared in accordance with the Occupational Pension Schemes (Requirement to obtain Audited Accounts and a Statement from the Auditor) Regulations 1996, Financial Reporting Standard (FRS) 102 - The Financial Reporting Standard applicable in the UK and Republic of Ireland issued by the Financial Reporting Council (“FRS 102”) and the guidance set out in the Statement of Recommended Practice “Financial Reports of Pension Schemes” (revised June 2018) (“the SORP”). The financial statements are prepared on a going concern basis of accounting, which the Trustee believes to be appropriate as it believes that the Fund has adequate resources to realise its assets and meet pension payments in the normal course of affairs (continue to operate) for at least twelve months from the date of approval of these financial statements.

3. Accounting policies

The following principal accounting policies, which have been applied consistently, have been adopted in the preparation of the Financial Statements.

3.1 Accruals concept

The Financial Statements have been prepared on an accruals basis.

3.2 Contributions

Employer normal contributions and Employer additional contributions are accounted for in the period in which they fall due under the schedule of contributions in force.

3.3 Benefits paid or payable

Pensions in payment are accounted for in the period to which they relate.

When members can choose whether to take their benefits as a full pension or as a lump sum with reduced pension, retirement benefits are accounted for on an accruals basis on the later date of retirement and the date the option is exercised.

Other benefits (including the purchase of annuities) are accounted for on an accruals basis on the date of retirement or death as appropriate.

Where the Trustee agrees or is required to settle tax liabilities on behalf of members (such as where lifetime or annual allowances are exceeded) with a consequent reduction in benefits receivable from the Fund, any tax liability due is accounted for on the same basis as the event giving rise to the tax liability, and will be shown separately within the benefits note.

3.4 Transfers to and from other schemes

Individual transfer values to and from other pension schemes are accounted for when the receiving scheme accepts the liability to pay for future benefits which is usually when the transfer value is paid or received.

Group transfers are accounted for when the transfer value is paid or received.

3.5 Expenses

Administrative and investment management expenses are accounted for on an accruals basis.

Life insurance premiums are borne by the Company.

3.6 Valuation of Investments

Investments are stated at fair value:

- i) The majority of listed investments are stated at the bid price or the last traded price, depending on the convention of the stock exchange on which they are quoted, at the date of the net assets statement.
- ii) Bonds are valued at their clean prices (i.e. without accrued income). Accrued income is accounted for within investment income.
- iii) Pooled Investment Vehicles are stated at bid price for funds with bid/offer spreads, or single price where there are no bid/offer spreads, as provided by the investment manager.
- iv) Derivative contracts are valued at market value.

Forward foreign exchange contracts are valued by determining the gain or loss that would arise from closing out the contract at the reporting date by entering into an equal and opposite contract at that date.

All gains and losses arising on derivative contracts are reported within 'Change in market value'.

Swaps – over the counter ("OTC") are valued at fair value, using a discounted cash flow pricing model which calculates the current value of future expected net cash flows arising from the swap, for which the time value of money is taken into account. Interest is accrued monthly under the terms relating to individual contracts.

Receipts on swap contracts are generally reported as interest income; net payments on swap contracts are generally reported as interest expense. Premiums paid or received at inception are included in the cost basis of the swap.

Realised gains and losses on closed contracts and unrealised gains or losses on open contracts are included within 'Change in market value'.

The notional principal amount is used for the calculation of cash flows only.

- v) External AVC funds are included at the market value advised by the Fund's managers at the year-end including the terminal bonus as advised by the manager.
- vi) Annuities are purchased and held in the name of the member so the value is not recorded in the financial statements of the Fund.

- vii) Reverse repurchase agreements (where the Fund has bought assets with the agreement to sell at a fixed date and price) are included at the fair value of the repurchase price (as an asset). Cash delivered under reverse repurchase contracts is recognised as an investment receivable in the financial statements. Securities received in exchange are disclosed as collateral supporting this receivable but not included as Fund assets.

3.7 Investment income

The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments and unrealised changes in market value. In the case of pooled investment vehicles which are accumulation funds, change in market value also includes income, net of withholding tax, which is reinvested in the fund.

Income from bonds is accounted for on an accruals basis and includes interest bought and sold on purchases and sales of bonds.

Interest on bank deposits accrues on a daily basis.

Receipts or payments under swap contracts, representing the difference between the swapped cash flows, are included in investment income on a cash basis.

The Fund pays and receives interest to/from repurchase agreement counterparties. This is accounted for on an accruals basis in line with the underlying contract agreement.

Investment income is reported net of attributable tax credits but gross of withholding taxes which are accrued in line with the associated investment income.

Collateral received in respect of stock-lending arrangements is disclosed, but not recognised as a Fund asset. Income received from stock-lending arrangements is accounted for on an accruals basis.

Transaction costs are included in the cost of purchases and sales proceeds. Transaction costs include costs charged directly to the Fund such as fees, stamp duties, commissions and other fees.

3.8 Foreign currency translation

The Fund's functional currency and presentation currency is pounds sterling (GBP).

Amounts denominated in foreign currencies at the year-end are translated at rates ruling at that time.

Differences on foreign currency transactions are reflected in change in market value of investments.

Investment income denominated in foreign currencies is recorded at the rate of exchange on the date of receipt.

3.9 Taxation

The Scheme is a registered Pension Scheme under Chapter 2 of Part 4 of the Finance Act 2004 and is therefore exempt from income tax and capital gains tax.

3.10 Estimates and Judgements

Critical accounting judgements and estimation uncertainty

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Key accounting estimates and assumptions

The Trustee make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. For the Fund, the Trustee believes the only estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are related to the valuation of the Fund's investments. Explanation of the key assumptions underpinning the valuation of investments are included above.

4. Contributions receivable

	DBS 2023 £'000	DCS 2023 £'000	Total 2023 £'000
Employers – normal	-	9,459	9,459
Employers – additional	-	25	25
	-	9,484	9,484

	DBS 2022 £'000	DCS 2022 £'000	Total 2022 £'000
Employers – normal	-	10,723	10,723
Employers – additional	-	28	28
	-	10,751	10,751

Employer normal contributions include employee contributions paid under salary sacrifice arrangements.

Until 31 March 2025, administrative expenses, including Trustee fees, fee rebates for pre 2004 DC members, PPF levies and other statutory levies will be paid by the Fund and the Fund will meet the cost of providing death in service pensions. The Employers may pay additional contributions in respect of expenses for certain one-off projects from time to time as agreed between the Trustee and the Company.

A new Schedule of Contributions was signed and certified in January 2023. The purpose of this new Schedule was to document agreement between the Company and the Trustee that credits to members' DC Plus accounts in respect of the period from 1 February 2023 to 31 January 2024 would be met from the general assets of the Fund without corresponding contributions being payable by the Employers, up to a cumulative maximum amount of £10m (or such other amount as the Trustee and Company may from time to time agree in writing).

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

This Schedule was subsequently replaced by a further Schedule of Contributions which was signed and certified in December 2023. The purpose of this further Schedule was to extend the agreement between the Company and the Trustee so that credits to members' DC Plus accounts would be met from the general assets of the Fund without corresponding contributions being payable by the Employers in respect of the period from 1 February 2023 to 31 July 2024, rather than to 31 January 2024, and to change the cumulative maximum amount to £15m (or such other amount as the Trustee and Company may from time to time agree in writing), from £10m.

Following the Fund year end, a new Schedule of Contributions was signed and certified in July 2024. This replaced the Schedule in place as at the Fund year end. This new Schedule extended the agreement between the Company and the Trustee so that credits to members' DC Plus accounts would be met from the general assets of the Fund without corresponding contributions being payable by the Employers in respect of the period from 1 February 2023 to 30 June 2025, rather than to 31 July 2024, and to change the cumulative maximum amount to £20m (or such other amount as the Trustee and Company may from time to time agree in writing), from £15m.

During the Fund year, £8,664,400 was transferred from the DBS section of the Fund to meet the cost of DC Employer contributions in accordance with the schedules of contributions certified in January 2023 and December 2023. Please also see note 5.

Additional employer contributions relate to redundancy payments made direct to the members' account by the Employers.

5. Transfers between sections

	DBS 2023 £'000	DCS 2023 £'000	Total 2023 £'000
Transfers of assets to fund contributions	(8,664)	-	(8,664)
Transfers between sections	4,330	(4,378)	(48)
	(4,334)	(4,378)	(8,712)

	DBS 2022 £'000	DCS 2022 £'000	Total 2022 £'000
Transfers between sections	2,619	(2,745)	(126)

The transfer of assets to fund contributions represents the payment of £8,664k from surplus assets of the DBS section to the DCS section in accordance with the Schedules of Contributions certified on 27 January 2023 and 12 December 2023. Please also see note 4.

Transfers between sections comprises transfers from the DC employer pot for the payment of Fund expenses arising from investment gains from members leaving the Fund with no vested benefit and contributions returned to the Fund on death in service, as well as transfers from the DCS to DBS for members with benefits in both sections. Those members have their benefits or transfers out paid out of the DBS.

Annual Report and Financial Statements

9. Transfers out

	DBS 2023 £'000	DCS 2023 £'000	Total 2023 £'000
Individual transfers out to other plans	7,402	47,035	54,437
	DBS 2022 £'000	DCS 2022 £'000	Total 2022 £'000
Individual transfers out to other plans	11,778	29,299	41,077

10. Other payments

	DBS 2023 £'000	DCS 2023 £'000	Total 2023 £'000
Other payments	24	-	24

Other payments relate to compensation payments.

	DBS 2022 £'000	DCS 2022 £'000	Total 2022 £'000
Other payments	159	-	159

Other payments in 2022 include £26k of compensation payments the remainder reflects an accounting adjustment from 2021.

11. Administrative expenses

	DBS 2023 £'000	DBS 2022 £'000
Administration and processing	573	685
Audit fee	91	83
Pension Regulator Levy	78	92
Legal fees	444	141
Actuarial fees	847	605
Trustee fees and expenses	129	47
Chief Operating Officer to the Trustee fees	786	966
Sundry expenses	42	7
	2,990	2,626

The fees above are shown including VAT, as the Fund is unable to reclaim this tax charge.

Until 31 July 2023, the Trustee of the Fund was Credit Suisse First Boston Trustees Limited (the 'Previous Trustee'). The Company, as principal employer of the Fund, replaced the Previous Trustee as Trustee of the Fund with the appointment of a professional corporate sole trustee, Independent Trustee Services Limited (referred to as 'ITS' or the 'Trustee').

The expenses of the Trustee Directors of the Previous Trustee paid by the Fund during the year (other than those paid to the Independent Trustee Director of the Previous Trustee) total £402 (2022: £551).

Fees paid by the Fund to the Independent Trustee of the Previous Trustee, Law Debenture Pension Trust Corporation P.L.C, (prior to the appointment of ITS as the sole corporate Trustee with effect from 1st August 2023) totalled £26,352 (2022: £46,806).

Fees paid by the Fund to ITS in its capacity as Trustee of the Fund in the year totalled £102,569 (2022: nil) and are included in Trustee fees and expenses above.

Fees paid by the Fund to the previous Trustee Chief Operating Officer ("COO") in the Fund year totalled £565,384 (2022: £965,380).

Fees paid by the Fund to the new Trustee COO (since the appointment of ITS as Trustee COO with effect from 1st August 2023) total £221,111 (2022: nil).

12. Investment income

	DBS 2023 £'000	DBS 2022 £'000
Income from bonds	29,784	31,019
Income from stock lending	661	613
Net receipts from derivatives	2,104	143
Income from cash	2,716	487
Net interest expense payable on repurchase agreements	(72)	(243)
	35,193	32,019

13. Investment management expenses

	DBS 2023 £'000	DBS 2022 £'000
Administration and custody fees	1,417	1,447
Consultancy	533	457
	1,950	1,904

The funds in the Defined Contribution sections have annual management charges. The funds also incur expenses such as auditing and registry fees. The annual management charge and the other expenses are deducted from each fund's assets and are reflected in the quoted daily price for the fund. They are not taken directly from member's pension accounts.

	1,215,573	257,700	(374,413)	(20,671)	1,078,189
Cash and cash equivalents	55,551			(160)	183,095
Reverse repurchase agreements	4,489				3,530
Other investment balances - net	6,365				4,901
	1,281,978			(20,831)	1,269,715
DC SECTION					
Pooled investment vehicles	1,073,286	96,080	(139,840)	139,121	1,168,647
AVC Investments	1,401	-	(48)	41	1,394
	1,074,687	96,080	(139,888)	139,162	1,170,041

The change in market value of investments during the year comprises all increases and decreases in the market value of investments held at any time during the year, including profits and losses realised on sales of investments during the year.

Transaction costs are included in the cost of purchases and sale proceeds. Transaction costs include costs charged directly to the Fund such as fees, commissions, stamp duty and other fees. Indirect costs are incurred through bid-offer spread on investments within pooled investment vehicles. The amount of indirect costs is not separately provided to the Fund.

With respect to the Pooled Investment Vehicles in the DC Sections at 31 December 2023, £1,168,640,895 is designated to members and relates to members' units (2022: £1,073,279,839) and £6,490 relates to the units not designated to members and held by the Trustee (2022: £6,020). Included within purchases and sales of DCS pooled investment vehicles are switches of £84,986k.

Insurance policies are held to cover pensions in payment in respect of certain members. These policies are specifically allocated to the provision of benefits for, and provide all the benefits payable under the Fund to, those members. Accordingly, the acquisition costs of such policies are treated in the Fund Account in the period in which they arise, as the cost of discharging the obligations of the Fund to the relevant members at the time of purchase. These policies are held in the members' names and are therefore not valued in these financial statements.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

15. Investment fair value hierarchy

The fair value of financial instruments has been determined using the following fair value hierarchy:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.
- Unrated - represents items that are not required to be assigned a level such as pending trades, dividends and tax, they have been included for completeness.

The Fund's investments have been analysed using the above hierarchy categories as follows:

At 31 December 2023	Level	Level	Level	Unrated	Total

Derivatives comprise over the counter ("OTC") investments.

Objectives and policies

The Trustee has authorised the use of derivatives by its investment managers as part of its investment strategy for the Fund.

Investment managers may use derivatives for both efficient portfolio management and to manage investment risks.

The main objectives for the use of key classes of derivatives and the policies followed during the year are summarised as follows:

Swaps – The Fund uses swaps to hedge a proportion of the interest rate risk of the bond assets as well as a proportion of the estimated interest rate and inflation risk of the accrued liabilities of the Fund. The Trustee's aim was to hedge 120% of the Fund's interest rate risk and 110% of the Fund's inflation rate risk arising from the Technical Provisions. Post year end, these percentages were changed to 107% for both interest and inflation risk.

Forwards – The Trustee does not have a specific strategy for Forward Contracts, the Contracts held by the Fund relate to the management of a discretionary US Credit account by PIMCO Europe Limited rather than being specific Forward Contracts taken on by the Fund.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

17.1. Swaps (OTC)

Type of contract	Expiration	Notional Amounts £'000	Asset £'000	Liability £'000
Inflation Swaps	0-10 years	13,140	1,171	-
	10-20 years	19,929	1,730	(210)
	Over 20 years	23,541	114	(1,267)
		56,610	3,015	(1,477)
Interest Rate Swaps	0-10 years	88,308	867	(800)
	10-20 years	53,841	53	(1,798)
	Over 20 years	64,095	4,552	(10,059)
		206,244	5,472	(12,657)
Total Return Swap	0-10 years	201,076	5,120	(9,112)
		201,076	5,120	(9,112)
Sub totals			13,607	(23,246)
Swaps Total Net Asset				(9,639)

Under the swap contracts, at 31 December 2023 there was collateral of £14,129,725 (2022: £55,648,984) pledged and £9,372,611 (2022: £4,138,726) held. Collateral was held/pledged in the form of cash and bonds.

17.2. Forward foreign currency contracts (OTC)

Buy/Sell Currency	Bought Currency £'000	Sold Currency £'000	Asset £'000	Liability £'000
Sterling / Euro	29,894	(37,327)	621	-
Sterling / US dollar	57,752	(71,890)	1,258	-
Euro / Sterling	46	(53)	-	-
			1,879	-

FX is traded under ISDA (International Swaps and Derivatives Association) and is collateralised using the Bond portfolio. All contracts had a duration of less than 1 year.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

18. Cash and cash equivalents

	DBS 2023 £'000	DBS 2022 £'000
Sterling cash deposits	180,000	53,580
Foreign currency cash deposits	3,095	1,971
	183,095	55,551

Included within cash and cash equivalents are £152,093k (2022: £53,908k) of cash equivalent funds. These are used to facilitate liquidity within the Fund's DB portfolio.

19. Amounts receivable under reverse repurchase agreements

	DBS 2023 £'000	DBS 2022 £'000
Amounts receivable under reverse repurchase agreements	3,530	4,489

As at 31 December 2023 there was 1 (2022: 1) reverse repurchase contract with an asset market value of £3.530m (2022: £4.489m). This contract was settled in February 2024.

Any gains and losses from repurchase contracts are collateralised in order to mitigate counterparty risk. As at 31 December 2023, collateral of £3.609m (2022: £4.588m), in the form of bonds, was held by the Fund in relation to the reverse repurchase contract.

20. Other investment balances

	DBS 2023 £'000	DBS 2022 £'000
Accrued income	8,207	9,083
Other investment liabilities	(3,306)	(2,718)
	4,901	6,365

21. AVC Investments

The Trustee holds assets in respect of members' Additional Voluntary Contributions (AVCs) which are separately invested from the main fund. These secure additional benefits, on a money purchase basis, for those members who have elected to pay additional voluntary contributions.

Members participating in this arrangement receive an annual statement confirming the amounts held to—

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

their account and the movements during the year.

The total amount of AVC investments at the year-end is shown overleaf.

DC SECTION	2023 £'000	2022 £'000
Scottish Friendly (with profits)	13	13
Phoenix Life Limited (unit linked)	19	19
The Prudential Assurance Company (unit linked / with profits)	944	942
Standard Life Assurance Company (with profits)	418	427
	1,394	1,401

AVC funds held with FIL totalling £2,406,527 (2022: £2,403,006) are shown within DC section pooled investment vehicles (see note 16). A valuation at the year-end for Scottish Friendly and Phoenix Life has not been received, as a result the valuation shown above is based on the previous valuation as at 31 December 2021.

22. Stock Lending

Since 2017, the Fund has lent securities under a Trustee approved securities lending programme, which gives the custodian approval to lend securities in the market in the form of fixed interest bonds, subject to certain restrictions. The Trustee is comfortable that the custodian has appropriate risk management systems in place, including only lending to approved borrowers who are deemed to be creditworthy and to have appropriate collateral arrangements in place.

As at 31 December 2023, the market valuation of securities that had been lent in the market was £420,569,306 (2022: £518,539,646).

Collateral held in respect of the securities on loan at 31 December 2023 in the form of bonds, equities and cash, had a total value of £452,206,559 (2022: £553,830,095).

23. Investments Risks

FRS 102 requires the disclosure of information in relation to certain investment risks.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation, either directly or indirectly.

Market risk comprises currency risk, interest rate risk and other price risk, defined as follows:

- Currency risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in foreign exchange rates.
- Interest rate risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market interest rates.
- Other price risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Defined Benefit Sections

The Trustee determined the Fund's investment strategy (88% in Liability Driven Investments (LDI) and 12% in corporate Bonds) after taking advice from its investment consultant. Details are also included in the Statement of Investment Principles. The Fund has exposure to the aforementioned risks via the investments held to implement the investment strategy.

Within each investment portfolio, investment objectives and restrictions to manage risk are implemented through the legal agreements in place with the Fund's investment managers. The Trustee monitors the performance of the strategy and associated risks, and each investment manager against its objectives and restrictions, on a regular basis.

Further information on these risks and the approach of the Trustee to risk management is set out on the next page. The following table summarises the extent to which the various classes of investments are affected by financial risks. This table does not include AVC investments, as these are not considered significant in relation to the overall investments of the Fund.

Asset class	Investment manager	Valuations £000		Risks			
				Credit	Currency	Interest	Other
		2023	2022				
DB Section							
Bonds							
Bonds	PIMCO	68,466	70,910	S	P	S	P
Bonds	Insight	65,911	66,507	S	P	S	P
Bonds	M&G	61,366	60,751	S	P	S	P
Liability Driven Investments							
LDI	Insight	1,045,655	1,066,659	S	N	S	S
Pooled investment vehicles							
Indirect:							
Cash	Northern Trust	28,317	17,151	S	N	S	P
Total Defined Benefit		1,269,715	1,281,978				
DC Section							
Pooled investment vehicles		1,168,647	1,073,286	S	P	S	S

Key: Significant =(S), partial (P), negligible (N)

The categorisation is principally by investment manager, rather than just by asset class (bonds, derivatives, repurchase agreements, cash and other) as the risks relate to the overall portfolio held by each investment manager (Bonds and LDI), and therefore this table cannot be reconciled directly to note 14.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Some investment managers (across all asset classes) may, for example, also use derivative instruments as part of the investment strategy, and may also hold cash as part of their overall portfolio. Any accrued income is also shown in the totals above, and has not been separately analysed.

The LDI portfolio comprises bonds, derivatives and cash.

Credit risk

The Fund is directly exposed to credit risk in respect of the solvency of the custodian, Northern Trust.

These direct credit risks are mitigated by the segregated portfolios being ring-fenced from the investment managers and the custodians, the regulatory environments in which the investment managers and custodian operate and diversification of the Fund's investments across a number of segregated portfolios. The Trustee carries out due diligence checks prior to the appointment of any new investment manager or fund, and on an on-going basis, monitors for changes to the operating environment of the investment manager and custodian of the segregated assets.

The Fund is directly exposed to credit risk from its segregated portfolios in Global Buy & Maintain Credit managed by PIMCO, Insight and M&G.

These managers monitor credit risk on a daily basis and mitigate it via detailed research on the issuing entities. In addition, credit risk is mitigated by the strict limits for specific credit exposures set for each of the portfolios set by the Trustee.

The full restrictions on credit exposures are set out in the managers' Investment Management Agreements.

The managers of the segregated bond funds manage credit risk by having a diversified exposure to bond issuers, conducting thorough research on the probability of default of those issuers, and having only a limited exposure to bonds rated below investment grade. At the year end, around 99% (2022: c.99%) of bonds were investment grade. The Trustee take a standard definition of investment grade credit i.e. any bonds rated BBB- or above. The magnitude of credit risk within each fund will vary over time, as the manager changes the underlying investments in line with its views on markets, asset classes and specific bonds.

Within the LDI portfolio, there is exposure to credit risk as the portfolio manager uses derivative instruments. These derivatives are subject to robust collateralisation processes to mitigate the credit risk on a daily basis.

Currency risk

Whilst the majority of the currency exposure of the Fund's assets is to Sterling, the Fund is subject to currency risk because some of the Fund's investments are denominated in overseas currencies.

The Trustee considers the overseas currency exposure in the context of the overall investment strategy, and believes that the currency exposure that exists is appropriate. Furthermore, the Trustee managed the amount of currency risk by implementing separate currency hedging arrangements. Even where currency hedging arrangements are in place, there will still be residual currency risks, as these hedging arrangements may not be perfectly aligned to the assets.

The Fund's assets that are exposed to currency risk are the various segregated international bond portfolios, and cash held in foreign currencies.

Interest rate risk

The investments in the LDI strategy and the Buy & Maintain Credit portfolios expose the Fund to a material amount of interest rate risk. Swaps are used within these portfolios to hedge interest rate risk.

However, the interest rate exposure of these assets is structured to hedge the aggregate corresponding risks associated with the Fund's actuarial liabilities. The net effect will be to reduce the volatility of the actuarial funding level, and so the Trustee believes that it is appropriate to take exposures to these risks in this manner.

Other price risk

The Trustee believes that the Fund's assets are adequately diversified between different asset classes and within each asset class to manage this risk.

Within the LDI portfolio there is a significant exposure to inflation-linked swaps and index-linked bonds. Therefore, the Fund's assets are exposed significantly to expectations of future inflation rates. The magnitude of this risk to which the Fund is exposed in its assets has been carefully chosen to match closely the magnitude of this risk which is inherent in its liabilities to pay inflation-protected pensions. The Trustee is therefore comfortable that it is appropriate to take this risk in its assets.

Defined Contribution Section

Investment strategy

The Trustee's primary objectives for the DC Section are to provide members with access to:

- an appropriate range of investment options, reflecting the membership profile of the DC Section and the variety of ways that members can draw their benefits in retirement; and
- a default investment option that the Trustee believes to be reasonable for those members that do not wish to make their own investment decisions. The objective of the default option is to generate returns above inflation whilst members are some distance from retirement, but then to switch automatically and gradually to lower risk investments as members near retirement.

The Statement of Investment Principles outlines the investment objectives and strategy for the assets of the Fund.

The investment funds offered to members are provided by FIL Life Insurance Limited ("FIL Life"). These are invested in other underlying funds available through the FIL Life platform and provide reduced pricing on the funds being used. The following asset mix is available to the Fund:

- Equities
- Bonds
- Multi asset
- Property
- Cash

The Trustee has an investment management agreement in place with FIL Life that sets out guidelines for the underlying investments held by the funds. The day to day management of the underlying investments of the funds is the responsibility of FIL Life, including the direct management of credit and market risks.

The Trustee monitors the underlying risks by quarterly investment reviews with its investment consultants. FIL Life provides performance information and data on a quarterly basis.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

(i) Direct credit risk

A summary of pooled investment vehicles by type of arrangement are shown in the table below:

DC Section	2023 £'000	2022 £'000
Unit Linked Insurance Policies	1,165,016	1,070,269
Open Ended Investment Companies	3,631	3,017
	1,168,647	1,073,286

The DC Sections are subject to direct credit risk in relation to FIL Life through its holding in unit linked insurance funds provided by FIL Life.

FIL Life is regulated by the Financial Conduct Authority and maintains separate funds for its policy holders. The Trustee monitors the creditworthiness of FIL Life by reviewing published credit ratings. All the funds offered by FIL Life on their DC investment platform are invested through a life policy issued by FIL Life. FIL Life offers the Trustee a range of unit linked funds that in turn are invested with a range of underlying fund managers. The day to day management of the underlying investments within these funds is the responsibility of the respective fund managers. In the event of default by FIL Life, members may be entitled to compensation from the Financial Services Compensation Scheme.

(ii) Indirect credit risk

The DC Sections are subject to indirect credit and market risk arising from the underlying investments held in the white label funds. Member level risk exposures will be dependent on the funds invested in by members.

The Trustee only invests in funds where the financial instruments and all counterparties are at least investment grade.

(iii) Currency, interest rate and other price risk

The Fund's DC Sections are subject to indirect foreign exchange, interest rate and other price risk arising from the underlying financial instruments held in the funds managed by FIL Life.

Please note, the default strategy used by the Fund and the range of underlying funds and their collective blends have been selected by the Trustee of the Fund on the advice of its investment consultant.

The risk categorisation on the next page for each of the funds is based purely on the interpretation of the data provided to FIL Life by or on behalf of the managers of the underlying funds. It should not be relied upon to make any decisions relating to the funds provided to the Fund. For any clarification or further details regarding the credit risk, market risk or fair value hierarchy of these funds the Fund's investment consultants should be consulted.

Annual Report and Financial Statements

Other matters (DBS and DCS)

During 2023/2024, geopolitical issues (such as Russia's war in Ukraine) and economic issues (such as increases in the rates of inflation and interest rates and movements in foreign currencies) have had a profound effect on domestic and global economies, with disruption and volatility in the financial markets. The Trustee, in conjunction with its advisers, monitors the situation closely and determines any actions that are considered to be necessary. This includes monitoring the Fund's investment portfolio, the operational impact on the Fund and the covenant of the Principal Employer.

The extent of the impact on the Fund's investment portfolio, including financial performance, will depend on future developments in financial markets and the overall economy, all of which are uncertain and cannot be predicted. Since the year-end, the value of the Fund's investment assets and investment liabilities have been impacted. Whilst the Trustee monitors the overall position, it has not, at this time, quantified the change (being an increase or decrease) in market value of the investment assets and investment liabilities as markets remain fluid and unpredictable and therefore such an estimate cannot be made.

24. Concentration of investments

The following investments, excluding UK Government securities, account for more than 5% of the Fund's net assets as at 31 December 2023 or 31 December 2022:

	2023		2022	
	Market Value £'000	%	Market Value £'000	%
BlackRock Global ESG Aware Equity Fund (DC section)	628,514	25.6	595,348	25.0
BlackRock 50:50 Global Equity (DC section)	167,936	6.9	157,770	6.6
Fidelity Passive Multi-Asset Fund (DC section)	165,616	6.8	134,710	5.7

25. Employer related investments

The investments of the Fund are invested in compliance with the Pensions Act 1995.

At 31 December 2023, some of the Fund's defined contribution pooled investment vehicles are invested in equity shares issued by the Principal Employer's ultimate parent - UBS Group AG. The value of this employer related investment amounted to 0.095% of the Fund's net assets. At 31 December 2022, the ultimate parent was Credit Suisse AG and the investment amounted to 0.003%.

	(1,862)	-	(1,862)

28. Related party transactions

Key Management Personnel

Transactions with related parties of the Fund have been disclosed in the Financial Statements as follows:

During the Fund year, Adrian Cooper, Alex Spain, Steven Foster, Simon Meadows, Glenn Wellman, Patrick Flaherty and Laura Jackson, all directors of the Previous Trustee were paid a fee, in the aggregate, of £87,775 (2022: £137,750) for their services as directors of the Previous Trustee. This fee is paid by the Company and not recharged to the Fund.

Fees paid to the Independent Trustee of the Previous Trustee, Law Debenture Pension Trust Corporation P.L.C., are disclosed in note 11 as are the fees to the current Trustee, ITS. At the year-end £43,008 remained outstanding and is reflected in note 27 (2022: £27,613).

Fees paid by the Fund to the previous COO and the new Trustee COO (after the appointment of ITS as Trustee COO with effect from 1st August 2023) are disclosed in note 11. At 31 March 2024 £129,501 remained outstanding and is reflected in note 27 (2022: £305,791).

Four Trustee Directors of the Previous Trustee were in receipt of pensions in payment from the Fund during the Fund year (2022: 4 Trustee Directors). There were no Trustee Directors of the Previous Trustee who were active members of the Fund (2022: none). Two Trustee Directors of the Previous Trustee had a deferred benefit in the Fund (2022: 2 Trustee Directors).

29. Contingent liabilities and capital commitments

In 2018, the High Court ruled that pension schemes which had been contracted out of the State Scheme on a Guaranteed Minimum Pension (GMP) basis prior to 5 April 1997 must take action to treat men and women equally in relation to the GMP built up on service between 17 May 1990 and 5 April 1997. In 2020, the High Court ruled that transfers out since 17 May 1990 must also be equalised for any impact of GMP.

The Trustee is working with its advisers, on the impact of this ruling on the Fund and the equalisation of guaranteed minimum pensions between men and women, in the context of the Rules of the Fund and the value of any liability. When this review is finalised and any liability quantified, members affected will receive a communication and any impact on financial reporting will be considered by the Trustee.

In the opinion of the Trustee, the Fund had no other contingent liabilities or capital commitments at 31 December 2023 (2022: none).

ACTUARIAL CERTIFICATION OF THE SCHEDULE OF CONTRIBUTIONS

Name of scheme: Credit Suisse Group (UK) Pension Fund

Adequacy of rates of contributions

1. I certify that, in my opinion, the rates of contributions shown in this schedule of contributions are such that the statutory funding objective could have been expected on 31 December 2020 to continue to be met for the period for which the schedule is to be in force.

Adherence to statement of funding principles

2. I hereby certify that, in my opinion, this schedule of contributions is consistent with the Statement of Funding Principles dated September 2023.

The certification of the adequacy of the rates of contributions for the purpose of securing that the statutory funding objective can be expected to be met is not a certification of their adequacy for the purpose of securing the Fund's liabilities by the purchase of annuities, if the Fund were to be wound up.

Trustee’s Summary of Contributions

Payable under the Schedules of Contributions in respect of the
Fund year ended 31 December 2023

This Summary of Contributions has been prepared by, or on behalf of, and is the responsibility of, the Trustee. It sets out the employer and employee contributions payable to the Fund for the year ended 31 December 2023 under the Schedules of Contributions certified by the Fund Actuary on 30 March 2022, 25 January 2023 and 12 December 2023. The Fund’s auditors report on contributions payable under the Schedules in the Auditors’ Statement about Contributions.

Contributions payable under the Schedules of Contributions in respect of the year ended 31 December 2023 were as follows:

	DBS £'000	DCS £'000
Employer		
Normal contributions	-	9,459
Contributions payable under the Schedules (as reported on by the Fund Auditors)	-	9,459
Additional employer contributions	-	25
Total contributions reported in the financial statements	-	9,484

Employer normal contributions include employee contributions paid under salary sacrifice arrangements.

Approved by the Trustee and signed on its behalf by:

Chris Martin

Trustee Director

Date: 30 July 2024

Independent auditors' statement about contributions to the trustee of Credit Suisse Group (UK) Pension Fund

Statement about contributions

Opinion

In our opinion, the contributions payable under the schedules of contributions for the fund year ended 31 December 2023 as reported in Credit Suisse Group (UK) Pension Fund's summary of contributions have, in all material respects, been paid in accordance with the schedules of contributions certified by the fund actuary on 30 March 2022, 25 January 2023 and 12 December 2023.

We have examined Credit Suisse Group (UK) Pension Fund's summary of contributions for the fund year ended 31 December 2023 which is set out on the previous page.

Basis for opinion

Our examination involves obtaining evidence sufficient to give reasonable assurance that contributions reported in the summary of contributions have, in all material respects, been paid in accordance with the relevant requirements. This includes an examination, on a test basis, of evidence relevant to the amounts of contributions payable to the fund under the schedules of contributions, and the timing of those payments.

Responsibilities for the statement about contributions

Responsibilities of the trustee in respect of contributions

As explained more fully in the statement of trustee's responsibilities, the fund's trustee is responsible for preparing, and from time to time reviewing and if necessary revising, a schedule of contributions and for monitoring whether contributions are made to the fund by employers in accordance with relevant requirements.

Auditors' responsibilities in respect of the statement about contributions

It is our responsibility to provide a statement about contributions and to report our opinion to you.

Use of this report

This report, including the opinion, has been prepared for and only for the trustee as a body in accordance with section 41 of the Pensions Act 1995 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Statement of Investment Principles for the Credit Suisse Group (UK) Pension Fund

1. Introduction

This Statement of Investment Principles (“SIP”) sets out the policy of the Trustee of the Credit Suisse Group (UK) Pension Fund (“the Trustee”) on various matters governing decisions about the investments of the Credit Suisse Group (UK) Pension Fund (“the Fund”), a scheme with Defined Benefit (“DB”) and Defined Contribution (“DC”) sections; the Final Salary and Money Purchase Section, respectively. This SIP replaces the previous SIP dated 6 June 2022.

The SIP is designed to meet the requirements of Section 35 (as amended) of the Pensions Act 1995 (“the Act”), the Occupational Pension Schemes (Investment) Regulations 2005, the Pension Regulator’s guidance for defined benefit pension schemes (March 2017) and the Occupational Pension Schemes (Charges and Governance) Regulations 2015. The SIP also reflects the Trustee’s response to the Myners voluntary code of investment principles.

This SIP has been prepared after obtaining and considering written professional advice from LCP, the Fund’s Investment Adviser, whom the Trustee believes to be suitably qualified and experienced to provide such advice. The advice takes into account the suitability of investments including the need for diversification, given the circumstances of the Fund, and the principles contained in this SIP. The Trustee has consulted with the relevant employer in producing this SIP.

The Trustee will review this SIP from time to time and, with the help of its advisers, will amend it as appropriate. These reviews will take place as soon as practicable after any significant change in investment policy, and at least once every three years.

- Appendix 1 sets out details of the Fund’s investment governance structure, including the key responsibilities of the Trustee, investment advisers and investment managers. It also contains a description of the basis of remuneration of the investment adviser and the investment managers.
- Appendix 2 sets out the Trustee’s policy towards risk appetite, measurement and management.

2. Investment objectives

2.1. Final Salary Section

The primary objective for the Final Salary Section is to ensure that the Fund should be able to meet benefit payments as they fall due. In practice, this means that the Trustee expects, with a high degree of confidence, that the Fund’s assets meet its technical provisions plus a sufficient margin to allow for the possibility that future benefit obligations may exceed those assumed at the most recent valuation date (“self-sufficiency basis”), or (when there is a funding deficit on this basis) that there is an appropriate recovery plan in place and/ or that sufficient reserve assets (e.g. contingent contribution assets or assets held in escrow) are available to the Trustee to make up any shortfall.

To do so, the Trustee recognises that it must take into account the employer’s position in relation to the Fund and, in particular, its attitude to risk.

In addition to this primary objective, the Trustee has a series of secondary objectives. These are as follows:

- The Fund's assets should deliver sufficient returns to achieve the long-term funding objective of full funding on a self-sufficiency basis by 2035. The Trustee looks to minimise risk subject to adopting an investment strategy that has a reasonable expectation of achieving the return target.
- The Trustee invests in a range of asset classes with appropriate liquidity, security and diversification characteristics which seek to generate sufficient income and capital growth to meet the cost of benefits without any further contributions from the employer, given the current strong funding position.
- The Fund hedges interest rate and inflation risk arising from the Technical Provisions Value of the liabilities. Details of this, including the target level of hedging, are outlined in the Fund's Investment Policy Implementation Document.

2.2 Money Purchase Section

The Trustee's primary objectives for the Money Purchase Section are to provide members with access to:

- an appropriate range of investment options, reflecting the membership profile of the Money Purchase Section and the variety of ways that members can draw their benefits in retirement; and
- a default investment option that the Trustee believes to be reasonable for those members that do not wish to make their own investment decisions. The objective of the default option is to generate returns above inflation whilst members are some distance from retirement, but then to switch automatically and gradually to lower risk investments as members near retirement.

3. Investment strategy

The Trustee, with the help of its advisers and in consultation with the employer, reviewed the investment strategy for the Final Salary and Money Purchase Sections in 2021, taking into account the objectives described in Section 2 above.

3.1. Final Salary Investment Strategy

The investment strategy resulting from the review of the Final Salary Section is outlined in the Investment Policy Implementation Document ("IPID").

The Trustee expects to use any future employer contributions and disinvestments to rebalance the Fund's assets to match the target asset allocation within agreed tolerances. The progress against the target asset allocation is monitored on a quarterly basis.

3.2. Money Purchase Investment Arrangements

For the Money Purchase Section of the Fund, the Trustee has made available a range of investment funds for members. Each member is responsible for specifying one or more funds for the investment of their account, having regard to their attitude to the risks involved. If a member does not choose an investment option, their account will be invested into the default option, which is managed as a "lifestyle" strategy (ie it automatically combines investments in proportions that vary according to the time to retirement age). There are another two "lifestyle" investment strategies available to members, details of which can be found in the IPID.

The default option was designed to be in the best interests of the majority of the members based on analysis of the demographics of the Fund's membership carried out when the strategy was reviewed in 2021. The default option targets drawdown at retirement, since the Trustee believes that most members will wish to take their benefits in this form. Therefore, in the initial growth phase the default option is

invested to

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

target a return above inflation, and then in the 10 years before retirement, it switches gradually into less risky assets, with the asset allocation at retirement being designed to be appropriate for members taking drawdown.

The Trustee will monitor the relevant members' behaviour to check whether assumptions made about how members will access their benefits are borne out in practice.

During the temporary suspension of the Threadneedle Property Fund between 18 March 2020 and 16 September 2020, a decision was taken to temporarily redirect contributions into the CSPF Money Market Fund. As relevant members' contributions were directed into this fund without them making an active selection, this fund has been treated as a default arrangement for the purpose of fulfilling legislative requirements since March 2020. The CSPF Money Market Fund will remain a default until such a point that it no longer contains defaulted assets. It continued to hold defaulted assets as at April 2024.

The objective of the CSPF Money Market Fund is to produce a return in excess of its benchmark (SONIA Overnight). The fund is aimed at short-term investors seeking capital stability, a good degree of liquidity and minimum volatility of returns. The fund invests in short maturity instruments, typically overnight deposits and repurchase agreements, certificates of deposit, commercial paper and fixed/floating rate bonds, with a maximum maturity of 2 years.

4. Considerations in setting the investment arrangements

When deciding how to invest the Fund's assets, the Trustee considers a number of risks, including, but not limited to, those set out in Appendix 2. Some of these risks are more quantifiable than others, but the Trustee has tried to allow for the relative importance and magnitude of each risk.

The Trustee considered a wide range of asset classes for investment, taking account of the expected returns and key individual risks associated with those asset classes as well as how these risks can be mitigated where appropriate.

Some of the Trustee's key investment beliefs are set out below.

- asset allocation is the primary driver of long-term returns;
- risk-taking is necessary to achieve return, but not all risks are rewarded;
- equity, credit and illiquidity are the primary rewarded risks;
- risks that are typically not rewarded should generally be avoided, hedged or diversified;
- investment markets are not always efficient and there may be opportunities for good active managers to add value
- long-term environmental, social and economic sustainability is one of many factors that the Trustee should consider when making investment decisions; and
- costs have a significant impact on long-term performance.

4.1. Final Salary Section

In setting the strategy for the Final Salary Section the Trustee took into account: _____

- the Fund's investment objectives, including the target return required to meet the Trustee's investment objectives;
- the best interests of members and beneficiaries;
- the circumstances of the Fund, including the profile of the benefit cash flows, the funding level, and the strength of the employer covenant;
- the risks, rewards and suitability of a number of possible asset classes and investment strategies and whether the return expected for taking any given investment risk is considered sufficient given the risk being taken;
- the need for appropriate diversification between different asset classes to ensure that both the Fund's overall level of investment risk and the balance of individual asset risks are appropriate; and
- the Trustee's investment beliefs about how investment markets work and which factors are most likely to impact investment outcomes.

4.2. Money Purchase Section

In determining the investment arrangements for the Money Purchase Section the Trustee took into account:

- the best interests of members and beneficiaries;
- the profile of the membership and what this is likely to mean for the choices members might make upon reaching retirement;
- the risks, rewards and suitability of a number of possible asset classes and lifestyle strategies and whether the return expected for taking any given investment risk is considered sufficient given the risk being taken;
- the need for appropriate diversification within the default strategy and other lifestyle options to ensure that, for each such option, both the overall level of investment risk and the balance of individual asset risks are appropriate;
- the need for appropriate diversification within the other investment options offered to members;
- the Trustee's investment beliefs about how investment markets work and which factors are most likely to impact investment outcomes.

Our policy regarding investments in illiquid assets in the DC default arrangements is set out below. Illiquid assets mean assets that cannot be easily or quickly be sold or exchanged for cash, and where assets are invested in a collective investment scheme this includes any such assets held by the collective investment scheme.

The DC default arrangements do not currently include any investments in illiquid assets.

We believe that long-term net risk-adjusted investment returns may be improved by investing in illiquid assets. However, illiquid assets in DC pension schemes is a relatively new and developing area. Because

of this we wish to see further performance track record of illiquid funds available to DC schemes before we invest member assets in them. Therefore, at this time it is our policy not to invest in illiquid assets within the DC default arrangements. However, with the support of our investment advisers, we intend to consider investment in illiquid assets as part of our regular reviews of the default arrangements.

5. Implementation of the investment arrangements

Before investing in any manner, the Trustee obtains and considers proper written advice from its investment adviser on the question of whether the investment is satisfactory, having regard to the need for suitable and appropriately diversified investments.

Details of the investment managers are set out in the separate IPID.

The Trustee has limited influence over managers' investment practices, but it encourages its managers to improve their practices where appropriate.

The Trustee's view is that the fees paid to the investment managers, and the possibility of their mandate being terminated, ensure they are incentivised to provide a high quality service that meets the stated objectives, guidelines and restrictions of the Fund. However, in practice managers cannot fully align their strategy and decisions to the (potentially conflicting) policies of all their pooled fund investors in relation to strategy, long-term performance of debt/equity issuers, engagement and portfolio turnover.

It is the Trustee's responsibility to ensure that the managers' investment approaches are consistent with its policies before any new appointment, and to monitor and to consider terminating any existing arrangements that appear to be investing contrary to those policies. The Trustee expects investment managers, where appropriate, to make decisions based on assessments of the longer term financial and non-financial performance of debt/equity issuers, and to engage with issuers to improve their performance. It assesses this when selecting and monitoring managers.

The Trustee evaluates investment manager performance by considering performance over both shorter and longer-term periods as available. Except in closed-ended funds where the duration of the investment is determined by the fund's terms, the duration of a manager's appointment will depend on strategic considerations and the outlook for future performance. Generally, the Trustee would be unlikely to terminate a mandate on short-term performance grounds alone.

The Trustee's policy is to evaluate each of its investment managers by reference to the manager's individual performance as well as the role it plays in helping the Scheme meet its overall long-term objectives, taking account of risk, the need for diversification and liquidity. Each manager's remuneration, and the value for money it provides, is assessed in light of these considerations.

The Trustee recognises that portfolio turnover and associated transaction costs are a necessary part of investment management and that the impact of portfolio turnover costs is reflected in performance figures provided by the investment managers. The Trustee expects its investment consultant to incorporate portfolio turnover and resulting transaction costs as appropriate in its advice on the Fund's investment mandates.

5.1. Money Purchase Section

In respect of the Money Purchase Section, the Trustee has entered into a contract with a platform provider, who makes available the range of investment options to members. There is no direct contract between the Fund and the underlying investment managers of the Money Purchase Section investment funds.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

The Trustee has signed agreements with the platform provider in respect of the Money Purchase Section setting out in detail the terms on which the portfolios are to be managed. The investment managers' primary role is the day-to-day investment management of the Fund's investments.

The Trustee and investment managers, to whom discretion has been delegated, exercise their powers to give effect to the principles in this Statement of Investment Principles, so far as is reasonably practicable.

6. Realisation of investments

The investment managers have discretion over the timing of realisation of investments of the Fund within the portfolios that they manage, and in considerations relating to the liquidity of investments.

6.1. Final Salary Section

For the Final Salary Section, when appropriate, the Trustee, on the administrators' recommendation, decides on the amount of cash required for benefit payments and other outgoings and informs the investment managers of any liquidity requirements. A working cash balance is held for imminent payment of benefits and expenses.

The Trustee's preference is for investments that are readily realisable, but recognises that achieving a well-diversified portfolio may mean holding some investments that are less liquid. In general, the Trustee's policy is to use cash flows to rebalance the Fund's assets towards the strategic asset allocation (as set out in the accompanying IPID), and also receive income from some of the portfolios where appropriate.

6.2. Money Purchase Section

For the Money Purchase Section, the Trustee's policy is to invest in funds that offer daily dealing to enable members to readily realise and change their investments. The Fund Administrator will disinvest assets as instructed, according to members' entitlements.

7. Financially material considerations and non-financial matters

The Trustee has considered how environmental, social, governance ("ESG") should be taken into account in the selection, retention and realisation of investments since it recognises that these factors can be relevant to investment performance and are therefore considered as financial factors.

The Trustee considers it is necessary to act in the best financial interests of Fund members and therefore it expects its investment managers to take account of financially material considerations (including climate change and other ESG considerations), taking into account the nature and time horizon of the investments. It seeks to appoint managers, with the assistance of its Investment Advisor, that have appropriate skills and processes to do this, and from time to time reviews how its managers are taking account of these issues in practice.

The Trustee cannot usually directly influence investment managers' policies on ESG and ethical factors where assets are held in pooled funds; this is due to the nature of these investments. The Trustee seeks to encourage its managers to improve their practices where appropriate through engaging with them on these issues.

The Fund's Investment Adviser reviews the fund managers' ESG policies on a regular basis as part of its manager research process. The Investment Adviser assigns a score from 1 (weak) to 4 (strong) taking into account the manager's approach to managing ESG-relating risks and its stewardship practices such as exercising voting rights and engaging with company management. The Trustee reviews the RI scores

assigned to

the funds used within the Fund's investment strategy on an annual basis and before appointing new managers.

The Trustee also receives presentations from its managers on how ESG-related issues are taken into account in their investment processes. The Trustee will challenge the fund manager's approaches where appropriate and will report on ESG-related issues in relation to the Fund's investment strategy as part of its annual Implementation Statement.

The Trustee does not take into account any non-financial factors (ie matters relating to the ethical and other views of members and beneficiaries, rather than considerations of financial risk and return) when making investment decisions.

8. Voting and engagement

The Trustee recognises its responsibilities as owners of capital, and believes that good stewardship practices, including monitoring and engaging with investee companies, and exercising voting rights attaching to investments, protect and enhance the long-term value of investments.

The Trustee has delegated to its investment managers the exercise of rights attaching to investments, including voting rights, and engagement with issuers of debt and equity and other relevant persons about relevant matters such as performance, strategy, capital structure, management of actual or potential conflicts of interest, risks and ESG considerations.

The Trustee does not monitor or engage directly with issuers or other holders of debt or equity. The Trustee expects its investment managers to exercise ownership rights and undertake monitoring and engagement in line with the managers' general policies on stewardship, as provided to the Trustee from time to time, considering the long-term financial interests of the beneficiaries. The Trustee seeks to appoint managers that have strong stewardship policies and processes, reflecting where relevant the recommendations of the UK Stewardship Code issued by the Financial Reporting Council, and from time to time the Trustee reviews how these are implemented in practice.

The Trustee monitors managers' activities in relation to ESG factors, voting and engagement on a regular basis. It seeks to understand how they are implementing their stewardship policies in practice to check that their stewardship is effective and aligned with their expectations.

The Trustee has selected some priority ESG themes to provide a focus for its monitoring of investment managers' voting and engagement activities and these have been taken into account in the Implementation Statement for Fund Years to 31 December 2022 onwards). The Trustee reviews the themes regularly and updates them if appropriate. It communicates these stewardship priorities and their more general expectations in relation to ESG factors, voting and engagement to its managers periodically.

If the Trustee's monitoring identifies areas of concern, the Trustee will engage with the relevant manager to encourage improvements.

9. Additional voluntary contributions (AVCs)

In addition to being able to invest AVCs with Fidelity, the Fund has a further four AVC providers:

- Scottish Friendly
- Phoenix Life Limited
- Prudential
- Standard Life

Members can invest across a selection of With Profits and Unit Linked funds as part of these AVC arrangements.

10. Money purchase underpin

Certain categories of member have Final Salary benefits with a Money Purchase underpin, where the money purchase element is a notional money purchase fund and the value varies in line with the returns on the Fund's Final Salary assets.

Approved by the Trustee of the Fund

11th July 2024

Investment governance, responsibilities, decision-making and fees

The Trustee has decided on the following division of responsibilities and decision-making for the Fund. This division is based upon the Trustee's understanding of the various legal requirements placed upon it, and its view that the division of responsibility allows for efficient operation and governance of the Fund overall. The Trustee's investment powers are set out within the Fund's governing documentation.

1. Trustee

In broad terms, the Trustee is responsible in respect of investment matters for:

- setting out the risk parameters, in consultation with the employer;
- setting the investment strategy, in consultation with the employer;
- developing a mutual understanding of investment and risk issues with the employer;
- reviewing the investment policy as part of any review of the investment strategy;
- setting the policy for rebalancing between asset classes;
- appointing, monitoring, reviewing and dismissing investment managers, investment advisers, Scheme Actuary and other service providers;
- monitoring the exercise of the investment powers that they have delegated to the investment managers and monitoring compliance with Section 36 of the Act;
- communicating with members as appropriate on investment matters, such as the Trustee's assessment of its effectiveness as a decision-making body, the policies regarding responsible ownership and how such responsibilities have been discharged;
- putting effective governance arrangements in place and documenting these arrangements in a suitable form;
- reviewing the content of this SIP from time to time and modifying it if deemed appropriate; and
- consulting with the employer when reviewing the SIP.

2. Platform provider – money purchase section

The investment platform provider will be responsible for:

- providing access to a range of funds managed by various investment managers; and
- providing the Trustee with regular information concerning the management and performance of the assets.

3. Investment managers

In broad terms, the investment managers will be responsible for:

- managing the portfolios of assets according to their stated objectives, and within the guidelines and restrictions set out in their respective investment manager agreements and/or other relevant governing documentation.
- taking account of financially material considerations (including climate change and other ESG considerations) as appropriate when managing the portfolios of assets;
- providing the Trustee / investment platform provider with regular information concerning the management and performance of their respective portfolios; and
- having regard to the provisions of Section 36 of the Act insofar as it is necessary to do so.
- The custodians of the portfolios (whether there is a direct relationship between the custodian and the Trustee or not) are responsible for safe keeping of the assets and facilitating all transactions within the portfolios.

4. Investment Adviser

In broad terms, the Investment Adviser will be responsible, in respect of investment matters, as requested by the Trustee, for:

- the Final Salary Section, advising on how material changes within the Fund's benefits, membership, and funding position may affect the manner in which the assets should be invested and the asset allocation policy;
- the Money Purchase Section, advising on a suitable fund range and default strategy for the Fund, and how material changes to legislation or within the Fund's benefits and membership may impact this;
- advising on the selection, and review, of the investment managers, incorporating its assessment of the nature and effectiveness of the managers' approaches to financially material considerations (including climate change and other ESG considerations); and
- participating with the Trustee in reviews of this SIP.

The details of the Investment Adviser's appointment, including the scope of its remit and its fees are set out in a contract entered into between the Trustee and the Investment Adviser.

5. Scheme Actuary

The Scheme Actuary is responsible for performing valuations for the Fund's Final Salary Section at least every three years, in accordance with regulatory requirements. The purpose of this is to:

- assess the extent to which the Fund's Final Salary Section assets cover the accrued liabilities; and
- to provide information that will assist the Trustee and employer in agreeing contribution rates.

The details of the Scheme Actuary's appointment, including the scope of its remit and its fees are set out in a contract entered into between the Trustee and the Scheme Actuary.

6. Fee structures

The Trustee recognises that the provision of investment management and advisory services to the Fund results in a range of charges to be met, directly or indirectly, by deduction from the Fund's assets.

The Trustee has agreed Terms of Business with the Investment Adviser, under which work undertaken is charged for by an agreed fixed fee or on a "time-cost" basis.

The investment managers and platform provider receives fees calculated by reference to the market value of assets under management and also in some cases a performance related fee. The fee rates are believed to be consistent with the managers' general terms for institutional clients and are considered by the Trustee to be reasonable when compared with those of other similar providers.

The Trustee has appointed a custodian in respect of some of the Fund's investments. The custodian fees are predominantly calculated on a fixed fee basis. The fee rates are believed to be consistent with the custodian's general terms for institutional clients and are considered by the Trustee to be reasonable when compared with those of other similar providers.

The fee structure used in each case has been selected with regard to existing custom and practice, and the Trustee's view as to the most appropriate arrangements for the Fund. However, the Trustee will consider revising any given structure if and when it is considered appropriate to do so.

7. Performance assessment

The Trustee is satisfied, taking into account the external expertise available, that there are sufficient resources to support its investment responsibilities. The Trustee believes that it has sufficient expertise and appropriate training to carry out its role effectively.

It is the Trustee's policy to assess the performance of the Fund's investments, investment providers and professional advisers from time to time. The Trustee will also periodically assess the effectiveness of its decision-making and investment governance processes and will decide how this may then be reported to members.

8. Working with the Fund's employer

When reviewing matters regarding the Fund's investment arrangements (such as the SIP), the Trustee seeks to give due consideration to the employer's perspective. While the requirement to consult does not mean that the Trustee needs to reach agreement with the employer, the Trustee believes that better outcomes will generally be achieved if the Trustee and employer work together collaboratively.

Policy towards risk

1. Final Salary Section

Risk appetite and risk capacity

Risk appetite is a measure of how much risk the Trustee is willing to bear within the Fund in order to meet its investment objectives. Taking more risk is expected to mean that those objectives might be achieved more quickly, but it also means that there is a greater likelihood that the objectives are missed, in the absence of remedial action. Risk capacity is a measure of the extent to which the Trustee can tolerate deviation from its long term objectives before attainment of those objectives is seriously impaired. The Trustee's aim is to strike the right balance between risk appetite and risk capacity.

When assessing the risk appetite and risk capacity, the Trustee considered a range of qualitative and quantitative factors, including:

- The strength of the employer's covenant and how this may change in the near/medium future;
- The Fund's liability profile, its interest rate and inflation sensitivities, and the extent to which these are hedged;
- The Fund's cash flow and target return requirements; and
- The level of expected return and expected level of risk (as measured by Value at Risk ("VaR")), now and as the strategy evolves.

Using assumptions as at December 2023, the Fund's 3 year 95% Value at Risk was £38m. This means that there is a 1 in 20 chance that the Fund's funding position will worsen by £38m or more over a three year period, compared to the expected funding position. The Trustee believes this level of risk to be appropriate for the investment strategy given the Trustee's and employer's risk appetite and capacity, given the Fund's objectives.

Approach to managing and monitoring investment risks

The Trustee considers that there are a number of different types of investment risk that are important to manage and monitor. These include, but are not limited to:

1.2.1 Risk of inadequate returns

For the Final Salary Section, a key objective of the Trustee is that, over the long-term, the Fund should generate its target return so that it has adequate assets to meet its liabilities as they fall due. The Trustee therefore invests the assets of the Fund to produce a sufficient long-term return in excess of the liabilities. There is also a risk that the performance of the Fund's assets and liabilities diverges in certain financial and economic conditions in the short term. This risk has been taken into account in setting the investment strategy and is monitored by the Trustee on a regular basis.

1.2.2. Risk from lack of diversification

This is the risk that failure of a particular investment, or the general poor performance of a given investment type, could materially adversely affect the Fund's assets. The Trustee believes that the Fund's

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Final Salary Section assets are adequately diversified between different asset classes and within each asset class. This was key consideration when determining the Fund's investment arrangements and is monitored by the Trustee on a regular basis.

1.2.3. Interest rate and inflation risk

The Final Salary Section's assets are subject to interest rate and inflation risk because some of the Fund's assets are held in bonds / interest rate swaps, as segregated investments. However, the interest rate and inflation exposure of the Fund's assets hedges part of the corresponding risks associated with the Fund's liabilities.

The Trustee considers interest rate, inflation and overseas currency risks to be generally unrewarded investment risks.

As a result, the Trustee aims to hedge the Fund's exposure to interest rate risk and the Fund's exposure to inflation risk (arising from the Technical Provisions value of the liabilities), by investing in a mixture of bonds as well as leveraged LDI arrangements managed by Insight Investment Management. The Trustee reviews the liability hedging arrangements periodically and may adjust the benchmark for the liability hedging portfolio so that it continues to provide an appropriate hedge for the Fund's liabilities. Details of the Fund's current hedging arrangements are outlined in the Fund's Investment Policy Implementation Document.

The net effect of the Trustee's approach to interest and inflation risk will be to reduce the volatility of the funding level, and so the Trustee believes that it is appropriate to manage exposures to these risks in this manner and to review them on a regular basis. The Trustee will consult with the employer in respect of any proposed changes to the way that the hedging portfolio operates and, upon request; will provide the employer with a summary of any discussions held with the manager(s) of the Liability Hedging Portfolio in this regard.

1.2.4. Credit risk

This is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Fund is subject to credit risk because it invests in bonds via segregated funds. The Trustee manages its exposure to credit risk by agreeing investment guidelines with the investment manager which ensure the relevant portfolios have a diversified exposure to different credit issuers, and only invests in bonds that are classified as "investment grade" at purchase.

1.2.5. Investment manager risk

This is the risk that an investment manager fails to meet its investment objectives. Prior to appointing an investment manager, the Trustee receives written advice from a suitably qualified individual, and will typically undertake an investment manager selection exercise.

The Trustee monitors the investment managers on a regular basis to ensure they remain appropriate for its selected mandates.

1.2.6. Liquidity/marketability risk

For the Final Salary Section, this is the risk that the Fund is unable to realise assets to meet benefit cash flows as they fall due, or that the Fund will become a forced seller of assets in order to meet benefit payments. The Trustee is aware of the Fund's cash flow requirements and believes that this risk is

managed by maintaining an appropriate degree of liquidity across the Fund's investments and by investing in income generating assets, where appropriate.

1.2.7. Collateral adequacy risk

The Fund is invested in leveraged Liability Driven Investment ("LDI") arrangements to provide protection ("hedging") against adverse changes in interest rates and inflation expectations. The LDI manager may from time to time call for additional cash to be paid to the LDI portfolio in order to support a given level of leverage. Collateral adequacy risk is the risk that the Trustee when requested to do so will not be able to post additional cash to the LDI fund within the required timeframe. A potential consequence of this risk is that the Fund's interest rate and inflation hedging could be reduced and that the Fund's funding level could suffer subsequently as a result. In order to manage this risk, the Trustee ensures that the Fund has a sufficient allocation to cash and other highly liquid assets which can be readily realised, so that cash can be posted to the LDI manager at short notice.

1.2.8. Swaps, and other derivative instruments

Within the Final Salary Section there are risks associated with Over the Counter ("OTC") and Exchange Traded derivatives, which include (but may not be limited to) counterparty, liquidity and leverage risks. The Trustee has appointed investment managers to manage these risks and actively collateralise any positions to reduce the risk of counterparty default to the Fund. The Trustee is aware that derivative instruments may not be transparent in their pricing and OTC elements may have limited liquidity.

1.2.9. Currency risk

Whilst the majority of the currency exposure of the Fund's assets is to Sterling, the Fund is subject to currency risk because some of the Fund's investments are held in overseas markets. The Trustee considers the overseas currency exposure in the context of the overall investment strategy, and believes that the currency exposure that exists diversifies the strategy and is appropriate.

1.2.10. Stock lending risk

The Trustee has taken steps to manage the risks associated with the appointed investment managers or the custodian lending the assets of the Fund to third parties. The Trustee recognises that this can be a source of incremental returns and are comfortable with appointed investment managers and custodian engaging in stock lending provided that there are appropriate controls in place.

1.2.11. Risk from excessive charges

The Trustee is comfortable that the charges applicable to the Fund are in line with market practice and assess regularly whether these represent good value for members.

1.2.12. Environmental, social and governance (ESG) risks

Environmental, social and corporate governance (ESG) factors are sources of risk to the Fund's investments, some of which could be financially significant, over both the short and longer term. These potentially include risks relating to factors such as climate change, unsustainable business practices, and unsound corporate governance. The Trustee seeks to appoint investment managers who will manage these risks appropriately on their behalf and from time to time reviews how these risks are being managed in practice.

1.2.13. Other non-investment risks

The Trustee recognise that there are other, non-investment, risks faced by the Fund, and takes these into consideration as far as practical in setting the Fund's investment arrangements as part of its assessment of the other aspects of the Fund's Integrated Risk Management framework, namely funding and covenant. Examples for the Final Salary Section include:

- funding risk (the risk that the agreed funding plan is not borne out in practice); and
- sponsor covenant risk (the risk that, for whatever reason, the sponsoring employer is unable to support the Fund as anticipated).

Together, the investment and non-investment risks give rise generally to funding risk. This is the risk that the Fund's funding position falls below what is considered an appropriate level. The Trustee regularly reviews progress towards the Fund's funding target, both in the longer-term as well as against short-term milestones, comparing the actual versus the expected funding level.

By understanding, considering and monitoring the key risks that contribute to funding risk, the Trustee believes that it has appropriately addressed and is positioned to manage this general risk.

2. Money purchase section

2.1. Approach to managing and monitoring investment risks

The Trustee considers that there are a number of different types of investment risk that are important to manage and monitor. These include, but are not limited to:

2.1.1. Risk of inadequate returns

In the Money Purchase Section, as members' benefits are dependent on the investment returns achieved, it is important that investment options are available which can be expected to produce adequate real returns over the longer term. Accordingly, equity and equity-based funds, which are expected to provide positive returns above inflation over the long term, have been made available to members and feature in the growth phase of the default strategy. To reduce the chance of a sharp deterioration in members' benefits close to retirement, the Trustee has made the default option a "lifestyle" strategy.

2.1.2. Risk from lack of diversification

This is the risk that failure of a particular investment, or the general poor performance of a given investment type, could materially adversely affect assets. The Trustee believes that the Fund's Money Purchase default strategy is adequately diversified between different asset classes and within each asset class and the Money Purchase options provide a suitably diversified range for members to choose from. This was key consideration when determining the Fund's investment arrangements and is monitored by the Trustee on a regular basis.

2.1.3. Liquidity/marketability risk

For the Money Purchase Section, this is the risk that core financial transactions, such as investing members' contributions, are not processed promptly due to lack of liquidity in the investments. The Trustee manages this risk by only using pooled funds with daily dealing within the default strategy and diversifying the strategy across different types of investment.

2.1.4. Investment manager risk

This is the risk that an investment manager fails to meet its investment objectives. Prior to appointing an investment manager, the Trustee receives written advice from a suitably qualified individual, and will typically undertake an investment manager selection exercise. The Trustee monitors the investment managers on a regular basis to ensure they remain appropriate for its selected mandates.

2.1.5. Risk from excessive charges

Within the Money Purchase Section, if the investment management charges together with other charges levied on, for example, transfers or early retirement are excessive, then the value of a member's account will be reduced unnecessarily. The Trustee is comfortable that the charges applicable to the Fund are in line with market practice and assess regularly whether these represent good value for members.

2.1.6. Credit risk

This is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Money Purchase Scheme is subject to credit risk because a number of options available to members invest in bonds. Credit risk is mitigated by the investment managers ensuring that the relevant portfolios have a diversified exposure to different credit issuers.

2.1.7. Currency risk

The Money Purchase Section is subject to currency risk because some of the options available involve investing in overseas markets. Members should consider their overseas currency exposure in the context of their overall investment strategy. The Trustee believes that the currency exposure that exists within the default strategy diversifies the strategy and is appropriate. Furthermore, a number of the options available manage the amount of currency risk by hedging currency exposure.

2.1.8. Environmental, social and governance (ESG) risks

Environmental, social and corporate governance (ESG) factors are sources of risk to the Fund's investments, some of which could be financially significant, over both the short and longer term. These potentially include risks relating to factors such as climate change, unsustainable business practices, and unsound corporate governance. The Trustee seeks to provide investment options to the Money Purchase Section which will manage these risks appropriately on members' behalf and from time to time the Trustee reviews how these risks are being managed in practice.

2.1.9. Other non-investment risks

The Trustee recognises that there are other, non-investment, risks faced by the Fund, and takes these into consideration as far as practical.

For the Money Purchase Section, the Trustee has conducted due diligence into areas such as the structure of funds available to members, risk management processes of the fund managers and custodian arrangements. The Trustee is therefore satisfied with the security of assets held within this section and believes that the impact of the Financial Service Compensation Scheme not applying in certain circumstances is a relatively remote risk.

Other Information

Introduction

The Fund is a hybrid scheme incorporating Defined Benefit and Defined Contribution sections.

The registration number in the Register of Occupational and Personal Pension Schemes is **10146102**.

- (i) The Trustee is required to provide certain information about the Fund to the Pension Tracing Scheme. This has been forwarded to:

The Pension Service 9
Mail Handling Site A
Wolverhampton
WV98 1LU

- (ii) The Pensions Ombudsman may investigate and determine any complaint or dispute of fact or law in relation to an Occupational pension scheme. Enquiries should be addressed to:

The Pensions Ombudsman
10 South Colonnade
Canary Wharf
E14 4PU

- (iii) The Money and Pensions Service deals with general requests for information or guidance concerning pension arrangements and can be contacted at:

The Money and Pensions Service
120 Holborn
London
EC1N 2TD

- (iv) The Pensions Regulator (tPR) is the UK regulator of work-based pension schemes.

The Pensions Act 2004 gives the Pensions Regulator a set of specific objectives:

- to protect the benefits of members of work-based pension schemes;
- to promote good administration of work-based pension schemes; and
- to reduce the risk of situations arising that may lead to claims for compensation from the Pension Protection Fund.

tPR can be contacted at:

The Pensions Regulator
Telecom House
125-135 Preston Road
Brighton
BN1 6AF

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

The Pension Protection Fund was introduced to protect members' interests in certain circumstances, i.e. to provide compensation where an employer has become insolvent and the scheme assets have been reduced due to fraud, theft, or misappropriation. It does not cover losses resulting from adverse investment returns.

The Pension Protection Fund is funded by a levy on occupational pension schemes.

- (v) The Trust Deed and Rules, the Fund details and a copy of the Schedule of Contributions, Statement of Investment Principles and Statement of Funding Principles are available for inspection free of charge by contacting the Trustee c/o the Trustee COO at the address shown on page 3 of this annual report.

Any information relating to the member's own pension position, including estimates of transfer values should be requested from the administrator of the Fund, Fidelity, at the address shown on page 3.

Implementation Statement, covering the Fund Year from 1 January 2023 to 31 December 2023

Under the regulatory requirements now in force (principally comprising The Pension Protection Fund (Pensionable Service) and Occupational Pension Plans (Investment and Disclosure) (Amendment and Modification) Regulations 2018 (as amended) and the guidance published by the Pensions Regulator, the trustee of the Credit Suisse (UK) Pension Fund (the 'Fund') is required to produce a yearly statement to set out how, and the extent to which, the trustee has followed its Statement of Investment Principles ('SIP') during the Fund Year, as well as details of any review of the SIP during the Fund Year, subsequent changes made with the reasons for the changes, and the date of the last SIP review. Information is provided on the last review of the SIP in Section 1 and on the implementation of the SIP in Sections 2-12 below.

Until 31 July 2023, the trustee of the Fund was Credit Suisse First Boston Trustees Limited (the 'Previous Trustee'). The Previous Trustee was replaced as trustee of the Fund with the appointment of a professional corporate sole trustee, Independent Trustee Services Limited (referred to as 'ITS').

ITS was appointed as trustee of the Fund with effect from 1 August 2023. References to 'Trustee' in this Statement, in respect of the period prior to 1 August 2023, refer to the Previous Trustee and references to 'Trustee' in this Statement in respect of the period from 1 August 2023 to the year end, refer to ITS.

The Statement is also required to include a description of the voting behaviour during the Fund Year by, and on behalf of, the Trustee (including the most significant votes cast by the Trustee or on its behalf) and state any use of the services of a proxy voter during that year. This is provided in Section 13 below.

In preparing the Statement, the Trustee has had regard to the [guidance on Reporting on Stewardship and Other Topics](#) through the Statement of Investment Principles and the Implementation Statement, issued by the Department for Work and Pensions ('DWP's guidance') in June 2022.

This Statement is based on the Fund's SIP that was in place for the Fund during the Fund Year – the SIP dated 4 October 2022 (updated in May 2022 and signed in October 2022) and should be read in conjunction with this SIP.

This statement incorporates the Final Salary ('FS') Section, which is in relation to the Defined Benefit ('DB') Section and the Money Purchase ('MP') Section, which is in relation to the Defined Contribution ('DC') Section.

1. Introduction

No review of the SIP was undertaken during the Fund Year. However, the SIP was formally reviewed after the Fund Year end in April 2024 (and signed on 10 July 2024) to reflect the following:

- Wording around the Trustee's stewardship priorities;
- Updates to the investment strategy in the FS section;
- The Fund's policy regarding investment in illiquid assets in the MP section;
- The addition of the CSPF Global ESG Focussed Equity Fund to the Fund's self-select range in the MP section.

The Trustee has, in its opinion, followed all of the policies in the Fund's SIP during the Fund Year. The following Sections provide detail and commentary about how and the extent to which it has done so.

2. Investment objectives

FS Section

The primary objective for the FS Section is to ensure that the Fund should be able to meet benefit payments as they fall due. In practice, this means that the Trustee expects, with a high degree of confidence, that the Fund's assets meet its technical provisions plus a sufficient margin to allow for the possibility that future benefit obligations may exceed those assumed at the most recent valuation date ('self-sufficiency basis'), or (when there is a funding deficit on this basis)

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

that there is an appropriate recovery plan in place and/ or that sufficient reserve assets (e.g. contingent contribution assets or assets held in escrow) are available to the Trustee to make up any shortfall.

There are a number of additional secondary objectives, which are outlined in the SIP. As at 31 December 2023, the Fund was in a strong position relative to its objectives.

MP Section

The performance and strategy of the default lifestyle strategy (the 'default') is reviewed at least every three years. The last review commenced in May 2021 and was completed in October 2021. Based on the outcome of this analysis, the Trustee concluded that the default had been designed to be in the best interests of the majority of the MP Section members and reflected the demographics of those members. The Trustee concluded that some enhancements to the strategy would be beneficial. These enhancements were implemented in March 2022.

The Trustee also provides members with access to a range of investment options which it believes are suitable for this purpose and enable appropriate diversification. The Trustee has made available two alternative lifestyle strategies and a self-select fund range to members covering all major assets classes. Whilst most of the changes resulting from the review were implemented during the previous Fund Year in March 2022, the Trustee agreed to add an active equity fund with an ESG focus, the addition of which was delayed due to developments in respect of the underlying fund. The review process continued over 2022 and early 2023 and the CSPF Global ESG Focussed Equity Fund was added to the self-select fund range at the end of April 2023.

3. Investment strategy

FS Section

The Trustee monitored the asset allocation on a quarterly basis and compared this to the strategic asset allocation, which were largely aligned over the Fund Year. The Trustee did not review the FS Section investment strategy over the Fund Year, though did make a minor change to the hedging profile.

MP Section

The Trustee did not review the DC investment strategy over the Fund Year. The next review is currently underway and the Trustee will include details in next year's Statement.

As mentioned in section 2, as part of the last review of investment strategy, which was undertaken during 2021, the Trustee agreed to add an active equity fund with an ESG focus. The CSPF Global ESG Focussed Equity Fund was added to the self-select fund range in April 2023.

The Trustee considered retirement data to see when members access their benefits in relation to their target retirement age as part of the last strategy review but not during the Fund Year.

4. Considerations in setting the investment arrangements

Both Sections of the Fund

The Trustee invests for the long term, to provide for the Fund's members and beneficiaries. To achieve good outcomes for members and beneficiaries over this investment horizon, the Trustee therefore seeks to appoint managers whose stewardship activities are aligned to the creation of long-term value and the management of long-run systemic risks.

FS Section

When deciding how to invest the Fund's assets, the Trustee considers a number of risks, including, but not limited to, those set out in Appendix 2 of the SIP. It also considers a wide range of asset classes for investment, considering the expected returns and key individual risks associated with those asset classes as well as how these risks can be mitigated where appropriate.

MP Section

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

As part of the performance and strategy review of the DC default arrangement over 2021, the Trustee considered the investment risks set out in Appendix 2 of the SIP. It also considered a wide range of asset classes for investment, taking into account the expected returns and risks associated with those asset classes as well as how these risks can be mitigated.

Investments in the DC default arrangements do not include illiquid assets (ie investments that cannot be easily or quickly be sold or exchanged for cash) as illiquid assets in DC pension schemes are a relatively new and developing area. The Trustee will continue to monitor the area to see further performance track record of illiquid funds available to DC schemes before any decision to invest in these funds is made.

5. Implementation of the investment arrangements

Both Sections of the Fund

The Fund's investment adviser, Lane Clark & Peacock LLP ('LCP'), monitors the investment managers on an ongoing basis, through regular research meetings. The investment adviser monitors any developments at managers and informs the Trustee promptly about any significant updates or events they become aware of regarding the Fund's investment managers that may affect the managers' ability to achieve their investment objectives. This includes any significant change to the investment process or key staff for any of the funds the Fund invests in, or any material change in the level of diversification in the fund.

The Trustee was comfortable with all of its investment manager arrangements over the Fund Year.

The Trustee monitors the performance of the Fund's investment managers on a quarterly basis, using the quarterly performance monitoring reports produced by LCP. The report shows the performance of each fund over the quarter, one year and three years. Performance is considered in the context of the manager's benchmark and objectives.

FS Section

When deemed appropriate, the Trustee invites the Fund's investment managers to present at Trustee meetings. '

The most recent quarterly report shows that all managers have produced performance broadly in line with expectations over the long-term.

MP Section

The Trustee has entered into a contract with a platform provider, Fidelity, which makes available the range of investment options to members. As all the funds are accessed via an insurance agreement with the Fund's platform provider, there is no direct legal relationship between the Fund and the underlying investment managers of the MP Section investment funds. Nevertheless, the Trustee is responsible for appointing and providing governance oversight of the managers which the Fund accesses via the Fidelity arrangement.

As mentioned in section 2 and 3, the Trustee made available the CSPF Global ESG Focussed Equity Fund over the Fund Year. Before appointing Baillie Gifford as the underlying manager of this Fund, the Trustee received information on the investment process and philosophy, the investment team and past performance. The Trustee also considered the manager's approach to responsible investment and stewardship. The Trustee received formal written advice from its investment adviser, LCP, before making the Fund available. The Trustee relies on its investment adviser's research to understand managers' investment approaches, and ensure they are consistent with the Trustee's policies prior to any new appointment.

The quarterly DC report shows the performance of each manager over the quarter, 1 year and 3 year (annualised). The most recent report shows that all managers have produced performance broadly in line with expectations over the longer term.

In June 2023, the Trustee undertook a value for members assessment which assessed a range of factors, including the fees payable to managers in respect of the MP Section which were found to be competitive for a bundled trust-based arrangement.

6. Realisation of investments

FS Section

Where appropriate, the Trustee, on the administrators' recommendation, decided on the amount of cash required for benefit payments and other outgoings and informs the investment managers of any liquidity requirements. A working cash balance is held for imminent payments of benefits and expenses.

The Trustee receives income from the credit portfolios held with Insight, M&G and PIMCO, which is retained in the Northern Trust cash account and used towards paying benefit payments when needed (by transferring proceeds to the Trustee bank account when required).

In October 2023, the Trustee reviewed the Fund's cashflows requirements and made some changes to the Fund's cashflow policy.

MP Section

It is the Trustee's policy to invest in funds that offer daily dealing to enable members to readily realise and change their investments. All of the DC Section funds which the Trustee offered during the Fund Year are daily priced in normal market environments.

7. Financially material considerations, non-financial matters

Both Sections of the Fund

As part of its advice on the selection and ongoing review of the investment managers, the Fund's investment adviser, LCP, incorporates its assessment of the nature and effectiveness of managers' approaches to financially material considerations (including climate change and other ESG considerations), and its assessment of the nature and effectiveness of managers' approaches to voting and engagement.

FS Section

Over the previous Fund Year, the Trustee reviewed the Fund's credit managers' climate credentials, identifying areas to engage on with the respective managers. In February 2023, the Trustee reviewed the engagement responses and were satisfied with managers' improvements overall.

MP Section:

The Trustee makes available to members the CSPF Global ESG Aware Equity Fund, which aims to reduce its carbon exposure compared a market capitalisation index, within the default and alternative lifestyle strategies. The Trustee makes this Fund available based on financial considerations and in order to allow members to take account of climate-related risks.

The Trustee recognises that some members may wish to take further ESG matters than just climate into account in their investments and therefore, as mentioned earlier in this Statement, it has made available the CSPF Global ESG Focussed Equity Fund as a self-select investment option to members.

LCP presented its high-level review of the Fund's investment managers' climate credentials following the Fund year end, in March 2024, providing an update following the last review in May 2022. This review included detailed analysis on the climate-risk management and alignment with net zero goals of each of the fund managers invested as part of the popular DC arrangements (ie funds that have more than £100m invested or account of 10% or more of total Fund assets).

The review also included key actions for the Trustee to monitor the fund managers on. Overall, the Trustee was satisfied that its managers had embedded climate considerations into their philosophy and management processes and that all the managers were taking steps to improve their climate capabilities. However, the Trustee did note that all managers had areas for improvement and agreed to engage with BlackRock in particular given it holds the majority of the MP Fund assets. Further details are provided in section 8 below.

8. Voting and engagement

MP Section:

The Trustee has delegated to the investment managers the exercise of rights attaching to investments, including voting rights, and engagement. BlackRock is the only investment manager used with the MP Section's default strategy that holds physical equities, information on their voting policies are available here:

<https://www.blackrock.com/corporate/literature/fact-sheet/blk-responsible-investment-engprinciples-global.pdf>

As part of its advice on the selection and ongoing review of the investment managers, the Fund's investment adviser incorporates its assessment of the nature and effectiveness of managers' approaches to voting and engagement.

Prior to its disbandment in August 2023 following the appointment of the new professional corporate sole trustee, at the Investment Committee meeting of the Previous Trustee in late 2022, the Trustee discussed and agreed the stewardship priorities for the Fund which were (i) Climate Change, (ii) Human Rights, (iii) Corporate Transparency and Business Ethics. These were selected as they covered Environmental, Social and Governance topics which the Trustee felt were most relevant. The Trustee communicated these priorities to its managers in February 2023.

BlackRock presented to the Trustee on stewardship matters during the Fund Year, in February 2023. The presentation covered topics such as how BlackRock's voting and engagement policies align with the Trustee's priorities (using clear examples) and how progress against engagement objectives is monitored. The Trustee was satisfied that BlackRock's stewardship activity is appropriate to address the Trustee's priorities.

Following a review of the climate metrics and targets during the Fund Year, the Trustee met again with BlackRock following the Fund Year end in March 2024. Following a detailed review of the voting, engagement, stewardship and other responsible investment ('RI') practices of BlackRock, LCP set-out a list of key 'asks' for BlackRock to improve its stewardship practices which the Trustee supports. These 'asks' which were shared with BlackRock prior to the meeting, asked BlackRock to improve its reporting on engagement and account more for systemic risks in its engagement.

As part of its presentation, BlackRock provided several examples of its engagement with portfolio companies and any positive outcomes achieved as a result of these engagements. BlackRock also acknowledged that they are looking to improve reporting for their investors. The Trustee noted that BlackRock articulated its position much better as part of the presentation compared to its regular reporting. The Trustee agreed to continue to engage through LCP with BlackRock to improve its reporting.

9. Additional voluntary contributions (AVCs)

There are no policies in this section of the SIP.

10. Money purchase underpin

There are no policies in this section of the SIP.

11. Investment governance, responsibilities, decision-making and fees (Appendix 1 of SIP)

Both Sections of the Fund

As mentioned in Section 5, the Trustee assesses the performance of the Fund's investments on an ongoing basis as part of the quarterly monitoring reports it receives.

The performance of the professional advisers is considered on an ongoing basis by the Trustee.

The Trustee has put in place formal objectives for LCP and will review the adviser's performance against these objectives on a regular basis (the last review was carried out during the Fund Year in Q4 2023). Following the Fund Year end, the Trustee updated the objectives as a part of the triannual objectives review process.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

During the Fund Year LCP provided further guidance to the Trustee on the Task force on Climate Related Financial Disclosures ("TCFD") requirements and reviewed various items, which will be reported in further detail in its second TCFD report covering the Fund Year.

12. Policy towards risk (Appendix 2 of SIP)

Risks are monitored on an ongoing basis with the help of the investment adviser, LCP.

The Trustee's policy for some risks, given their nature, is to understand them and to address them if it becomes necessary, based upon the advice of LCP or information provided to the Trustee by the Fund's investment manager. These risks are included in Appendix 2 of the SIP and include, but are not limited to, credit risk, liquidity risk and currency risk.

The following risks are covered earlier in this Statement: diversification risk in Sections 2 and 5, investment manager risk and excessive charges in Section 5, illiquidity/marketability risk in Section 6 and ESG risks in Section 7.

FS Section

For the Final Salary Section, a key objective of the Trustee is that, over the long-term, the Fund should generate its target return so that it has adequate assets to meet its liabilities as they fall due. The Trustee therefore invests the assets of the Fund to produce a sufficient long-term return in excess of the liabilities. There is also a risk that the performance of the Fund's assets and liabilities diverges in certain financial and economic conditions in the short term. This risk has been taken into account in setting the investment strategy and is monitored by the Trustee on a regular basis.

The Fund's interest and inflation hedging levels are monitored on an ongoing basis. Over the Fund Year, the Fund's hedging levels were broadly in line with the target levels. In December 2023, the Trustee agreed new interest and inflation hedge ratio targets of 107% (on a Technical Provisions basis).

With regard to collateral adequacy risk, the Trustee ensures the Fund has a sufficient allocation to cash and other highly liquid assets which can be readily realised, so that cash can be posted to the LDI manager at short notice. In addition, the Fund only operates a negligible amount of leverage within the LDI portfolio.

Together, the investment and non-investment risks set out in Appendix 2 of the SIP give rise generally to funding risk. The Trustees formally reviews the Fund's funding position as part of its quarterly actuarial and investment report to allow for changes in market conditions. On a triennial basis the Trustees reviews the funding position allowing for membership and other experience.

MP Section

With regard to the risk of inadequate returns, the Trustee makes use of equity and equity-based funds, which are expected to provide positive returns above inflation over the long term. These are used in the Default and are also made available within the self-select fund range. These funds are expected to produce adequate real returns over the longer term.

In order to mitigate credit risk, the Trustee expects relevant fund managers to ensure that their relevant portfolios have a diversified exposure to different credit issuers.

Currency risk is also mitigated through a diverse currency exposure in the default strategy. The Trustee does not hedge any of the overseas currency back to Sterling.

The Trustee recognises that there are other, non-investment, risks faced by the Fund, and takes these into consideration as far as practical. The Trustee conducts due diligence into areas such as the structure of funds available to members, risk management processes of the fund managers and custodian arrangements.

13. Description of voting behaviour during the Fund Year

All of the Trustee's holdings in listed equities are within pooled funds and the Trustee has delegated to its investment managers the exercising of voting rights. Therefore, the Trustee is not able to direct how votes are exercised and the Trustee has not used proxy voting services over the Fund Year. However, the Trustee monitors managers' voting and engagement behaviour on an annual basis and challenges managers where their activity has not been in line with the Trustee's expectations. As mentioned in section 8, BlackRock presented to the Trustee on stewardship matters during the Fund Year, in February 2023, and again following the Fund Year end in March 2024. Please see section 8 for more details on what these presentations covered.

In this section, the Trustee has sought to include voting data in line with the Pensions and Lifetime Savings Association (PLSA) guidance, PLSA Vote Reporting template and the Department for Work and Pensions' ('DWP') stewardship guidance.

FS Section

The FS Section is not invested in any funds that hold physical equities.

MP Section

For the MP Section, the Trustee has included only the funds used in the Default over the Fund Year and self-select funds that hold a significant proportion of the Plan's assets. We have included voting data on the funds that hold physical equities as follows:

- BlackRock Global 50:50 Index Fund
- BlackRock Low Carbon Equity Tracker Fund
- BlackRock BCIF iShares Emerging Markets Equity Index Fund

13.1 Description of the voting processes

The Trustee relies on the voting policies which its managers have in place. In preparing this Statement the Trustee reviewed the votes which its managers deemed significant and in doing so it assessed the extent to which the outcomes of its managers' policies were consistent with its beliefs and priorities. The Trustee did not identify any votes made that were inconsistent with the Trustee's voting and engagement policies or preferences.

MP Section

BlackRock

Voting decisions are made by members of the BlackRock Investment Stewardship team with input from investment colleagues as required, in each case, in accordance with BlackRock's Global Principles and custom market-specific voting guidelines.

The team and its voting and engagement work continuously evolves in response to changing governance related developments and expectations. BlackRock's voting guidelines are market-specific to ensure it takes into account a company's unique circumstances by market, where relevant.

BlackRock's engagement priorities are global in nature and are informed by BlackRock's observations of governance related and market developments, as well as through dialogue with multiple stakeholders, including clients. It may also update its regional engagement priorities based on issues that it believes could impact the long-term sustainable financial performance of companies in those markets.

As outlined in its Global Principles, BlackRock determines which companies to engage with directly based on its assessment of the materiality of the issue for sustainable long-term financial returns and the likelihood of its engagement being productive. BlackRock's voting guidelines are intended to help clients and companies understand its thinking on key governance matters. They are the benchmark against which it assesses a company's approach to corporate governance and the items on the agenda to be voted on at the shareholder meeting. BlackRock applies its guidelines pragmatically, taking into account a company's unique circumstances where relevant. It informs its vote decisions through research and engage as necessary. If a client wants to implement their own voting policy, they will need to be in a segregated account. BlackRock's Investment Stewardship team would not implement the policy itself,

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

but the client would engage a third-party voting execution platform to cast the votes.

BlackRock's proxy voting process is led by the BlackRock Investment Stewardship team, with input from the wider investment team as required, in accordance with BlackRock's Global Corporate Governance and Engagement Principles and custom market-specific voting guidelines.

While BlackRock subscribes to research from the proxy advisory firms Institutional Shareholder Services ('ISS') and Glass Lewis & Co ('Glass Lewis'), this is just one among many inputs into BlackRock's vote analysis process. BlackRock primarily uses proxy research firms to synthesise corporate governance information and analysis into a concise, easily reviewable format so that BlackRock Investment Stewardship analysts can readily identify and prioritise those companies where its own additional research and engagement would be beneficial. Other sources of information BlackRock uses include the company's own reporting (such as the proxy statement and the website), its engagement and voting history with the company, the views of its active investors, public information and ESG research.

Where BlackRock believes it will help to understand the voting decisions at shareholder meetings, BlackRock will publish a Voting Bulletin explaining the rationale for how it or, in this case, the independent fiduciary, has voted on select resolutions, and (where relevant) provide information around its engagement with the issuer. These bulletins are intended to explain their vote decision, including the analysis underpinning it and relevant engagement history when applicable, where the issues involved are likely to be high-profile and therefore of interest to its clients and other stakeholders, and potentially represent a material risk to the investments it undertakes on behalf of clients. BlackRock makes this information public shortly after the shareholder meeting, so clients and others can be aware of its vote determination when it is most relevant to them.

13.2 Summary of voting behaviour

A summary of voting behaviour over the Fund Year is provided in the table below.

	Fund 1	Fund 2	Fund 3
Manager name	BlackRock	BlackRock	BlackRock
Fund name	Low Carbon Equity Tracker Fund	BCIF Emerging Markets Equity Index Fund	Global 50:50 Index Fund
Total size of fund at end of the Fund Year	£6,051m	£3,345m	£5,126m
Value of Fund assets at end of the Fund Year (£ / % of DC assets)	£655.1m / 56.1%	£72.8m / 6.3%	£167.9m / 14.4%
Number of equity holdings at end of the Fund Year	862	1,750	13,644

9.3 Most significant votes

MP Section

Commentary on the most significant votes over the Fund Year, from the Fund's asset managers who hold listed equities, is set out below.

Given the large number of votes which are cast by managers during every Annual General Meeting season, the timescales over which voting takes place and the resource requirements necessary to allow this, the Trustee did not direct any voting over the reporting period. Instead, the Trustee has retrospectively created a list of most significant votes by requesting each manager provide a shortlist of votes, a minimum of ten significant votes, and suggested they could use the PLSA's criteria for creating this shortlist.

The Trustee has interpreted 'most significant votes' to mean the votes for each fund that:

- were identified by the manager as a significant vote;
- impact a material fund holding, although this would not be considered the only determinant of significance, rather an additional factor; and
- serve as a representative example of the manager's voting approach to each of the Trustee's four stewardship priorities, as assessed by its investment adviser.

If members wish to obtain more investment manager voting information, this is available upon request from the Trustee.

BlackRock

During the period 1 January 2023 to 31 December 2023, BlackRock Investment Stewardship periodically published detailed explanations of specific key votes in 'vote bulletins'. These bulletins are intended to explain the vote decision, including the analysis underpinning it and relevant engagement history when applicable, on certain high-profile proposals at company shareholder meetings. BlackRock makes this information public shortly after the shareholder meeting, so clients and others can be aware of their vote determination when it is most relevant to them. BlackRock considers these vote bulletins to contain explanations of the most significant votes for the purpose of evolving regulatory requirements.

BlackRock Global 50:50 Index Fund

- **Siemens AG, Germany, February 2023**

Summary of resolution: Approve Virtual-Only Shareholder Meetings Until 2025

Key topics: Corporate governance

Approx size of the holding at the date of the vote: 0.25%

Why this vote is considered to be most significant: This vote was identified as significant by BlackRock.

Company management recommendation: For **Fund manager vote:** For.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Rationale: BlackRock are aware of the concerns expressed by some that virtual-only AGMs could potentially impede meaningful exchanges between management and shareholders. However, following their analysis of the proposals and engagement with the company, BIS believed that Siemens had proposed an appropriate approach that is not likely to undermine shareholder rights.

Was the vote communicated to the company ahead of the vote: No because the vote was in line with management.

Outcome of the vote and next steps: The outcome of the vote was in line with BlackRock's vote.

- **Shell plc, UK, May 2023**

Summary of resolution: Approve the Shell Energy Transition Progress

Key topics: Climate change

Approx size of the holding at the date of the vote: 3.32%

Why this vote is considered to be most significant: This vote was identified as significant by BlackRock.

Company management recommendation: For **Fund manager vote:** For

Rationale: BlackRock supported this management proposal in recognition of the delivery to date against the company's energy transition strategy. BlackRock believes Shell has and continues to provide a clear assessment of its plans to manage climate related risks and opportunities. BlackRock believes Shell has also continued to make significant investment in low and zero carbon energy.

Was the vote communicated to the company ahead of the vote: No because the vote was in line with management.

Outcome of the vote and next steps: The outcome of the vote was in line with BlackRock's vote.

BlackRock Low Carbon Equity Tracker Fund

- **YUM! Brands, Inc., US, May 2023**

Summary of resolution: Shareholder Proposal Regarding Issuance of Civil Rights and Non-discrimination Audit Report

Relevant stewardship priority: Corporate transparency, human rights

Approx size of the holding at the date of the vote: 0.07%

Why this vote is considered to be most significant: This vote relates to a stewardship priority selected by the Trustee.

Company management recommendation: Against **Fund manager vote:** Against.

Rationale: In considering shareholder proposals requesting an assessment of a company's practices in relation to civil rights and non-discrimination, BlackRock takes into account the costs of an assessment as well as the benefits of mitigating the economic risk of inadequate policies and practices. In BlackRock's view, Yum!'s approach to these matters is proportionate to the human capital risks the company has identified. As a result, BlackRock determined that support for this shareholder proposal was not warranted.

Was the vote communicated to the company ahead of the vote: No because the vote was in line with management.

Outcome of the vote and next steps: The outcome of the vote was in line with BlackRock's vote.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

- **Restaurant Brands International, Canada, May 2023**

Summary of resolution: Shareholder Proposal to Report on the Reduction of Plastic Use

Relevant stewardship priority: Climate change

Approx size of the holding at the date of the vote: 0.04%

Why this vote is considered to be most significant: This vote relates to a stewardship priority selected by the Trustee.

Company management recommendation: Against **Fund manager vote:** Against.

Rationale: BlackRock did not support this proposal because, in its view, RBI's existing disclosures on plastics use are comprehensive and provide sufficient information to allow investors to understand the company's approach to managing the risks and opportunities of plastics use.

Was the vote communicated to the company ahead of the vote: No because the vote was in line with management.

Outcome of the vote and next steps: The outcome of the vote was in line with BlackRock's vote.

BlackRock BCIF Emerging Markets Equity Index Fund

- **Banco de Chile SA, Chile, March 2023**

Summary of resolution: Election of Directors (for 9 seats)

Key topics: Board quality and effectiveness, corporate governance

Approx size of the holding at the date of the vote: 0.07%

Why this vote is considered to be most significant: This vote was identified as significant by BlackRock.

Company management recommendation: For **Fund manager vote:** BlackRock voted for 7 directors and against 2

Rationale: BlackRock assesses voting issues – including the election of directors – on a case-by-case basis. Due to actions Banco de Chile took to unbundle their director elections and disclose relevant director experience, BlackRock was able to individually support the election of seven candidates proposed by management. In BlackRock's analysis, which was based on the aforementioned disclosures that detailed the suitability of its experience, the election of these seven directors was in shareholders' best long-term economic interests. BlackRock voted not to support the election of two directors because it was concerned that their service on an excess number of outside public boards could limit their ability to fulfil their oversight duties at Banco de Chile.

Was the vote communicated to the company ahead of the vote: BlackRock endeavours to communicate to companies when they intend to vote against management, either before or just after casting votes in advance of the shareholder meeting.

Outcome of the vote and next steps: The votes were passed. BlackRock will continue to monitor Banco de Chile's steps to enhancing their corporate governance structures, including board quality and director commitments.

- **Shin Kong Financial Holding Company, Taiwan, June 2023**

Summary of resolution: Election of Directors (for 15 director seats, including three independent director seats)

Key topics: Board quality and effectiveness, corporate governance

Approx size of the holding at the date of the vote: 0.06%

Why this vote is considered to be most significant: This vote was identified as significant by BlackRock.

Company management recommendation: The board recommended shareholders vote for its nominated directors and against those proposed by a group of shareholders seeking reform **Fund manager vote:** BlackRock voted for 5 directors nominated by the board and 9 directors proposed by the reform camp and pro-management shareholders. BlackRock voted against the other candidates.

Credit Suisse Group (UK) Pension Fund

Annual Report and Financial Statements

Rationale: BlackRock supported nine independent candidates and five non-independent directors. In BlackRock's view, financial and governance concerns warranted support for the independent candidates while maintaining a degree of management-supported directors to maintain a level of institutional knowledge in the board. BlackRock's view is that long-term shareholders tend to benefit when boards include a diversity of views and directors can act as checks and balances on one another, as necessary.

Was the vote communicated to the company ahead of the vote: BlackRock endeavours to communicate to companies when they intend to vote against management, either before or just after casting votes in advance of the shareholder meeting.

Outcome of the vote and next steps: The outcome for 20 of the 32 candidates was in line with BlackRock's votes. BlackRock will continue to engage with the company regarding the steps it is taking to enhance its corporate governance structure and support long-term financial value creation for shareholders.
